1. The document would summarize, for each four-figure Brussels Nomenclature heading, information on (a) tariffs, (b) variable levies and other special charges and (c) quantitative restrictions including centralized trading. In the case of (a) and (b) above the information would be in the form of ad valorem incidences. In the case of (c) above the document would indicate the type of restriction in question. This document would thus be in the form of a table with three columns under each country.

2. This summary would not give full details of the exact coverage of the measures. These would be found in following three annexes.

3. Annex 1 on tariffs would consist of the detailed listings described in COM.AG/W/58, after verification.

4. Annex 2 on variable levies and other special charges would list

(a) each tariff line on which variable levies and other special charges as listed in COM.AG/W/47, subject to any modifications that may be agreed,

(b) the ad valorem incidence of these levies and charges in 1968,

(c) value of imports under each tariff line referred to in (a) above, by origin.

5. Annex 3 on quantitative restrictions would consist of COM.AG/W/54 (taking into account the discussion of this document in the Working Group) and the notes to COM.AG/W/57.

/.

6. Tariff study data will shortly be available for the following eleven countries or groups of countries, Austria, Canada, Denmark, European Communities, Finland, Japan, Norway, Sweden, Switzerland, United Kingdom and United States. Full data on the ad valorem incidence and trade coverage of variable levies and other special charges is not at present available for any country or group of countries. Descriptive information on quantitative restrictions is available for all members of the Committee.

7. The question of adding other countries to the tariff study depends on a number of factors, including cost. It is suggested that members of the Agriculture Committee applying variable levies and other special charges should supply the secretariat, by a date to be agreed, with the information required to complete this part of the document.

8. It is further suggested that information on variable levies and other special charges and on quantitative restrictions should be supplied to the secretariat periodically to allow it to keep the document up to date.
