Annex 1

1 Outline of system

1. As regards Regulation 1025/70, the system of surveillance envisaged could be applied to goods from some countries. At present, four products are under surveillance, two from all contracting parties to GATT, one from one contracting party to GATT and the fourth also from one contracting party to GATT.

4 Use of licensing to restrict imports

As regards other methods, it is not possible, since six separate administrations are involved, to obtain the necessary information by other means.

See COM.IND/W/55/Add.7 (pages 3 to 8), and Corr. 1 and 2.
