1. At its meeting on 10 July 1981, the Working Party agreed that the secretariat, with the co-operation of the EC and other interested delegations, would endeavour to prepare an inventory of relevant measures affecting agricultural and industrial products operated by Greece immediately prior to its accession to the EC, and by the EC of Ten (Spec(81)36/Rev.1, paragraph 22).

2. Non-tariff measures applied by individual member States of the EC of Nine at the national level (especially in the area of import restrictions) are not included in the inventory since no changes have occurred in relation to these measures by virtue of the accession of Greece to the EC. Information in this respect can be found in the documentation of the Joint Working Group on Import Restrictions (L/5090) and of the Working Parties on Trade with Hungary (L/4836/Add.2), Poland (L/4626) and Romania (L/4935/Add.4).

3. The import duties (customs duties, variable levies) indicated are:

   - in respect of Greece prior to its accession to the Communities, those operated immediately prior to its accession;
   - in respect of the Communities of Ten, those that will be operated after full implementation of the concessions resulting from the MTN.

4. The non-tariff measures applied in the Communities of Ten reflect the situation after the transitional period following the accession of Greece. The following non-tariff measures are covered in the inventory:

   AP : Prior import permit
   CS : Additional guarantee (additional prior deposit)
   DAF : Additional duties on flour
   DAS : Additional duties on sugar
   DP : System of guarantee deposits and cash payment of imports
   DT : Stamp duty
   EM : Variable component
   (EST) : Measure applied vis-à-vis State-trading countries
5. The following sources have been used:
