Arrangement Regarding Bovine Meat

INTERNATIONAL MEAT COUNCIL
THIRTEENTH MEETING
Draft Report
Corrigendum

Page 18, paragraph 25: Amend penultimate sentence to read: "Its present low level would eventually cause production to slow down".

Page 19, paragraph 28: In line 14 replace "value" by "volume".

Page 20, paragraph 28: The sixth sentence on page 20 should read: "So assuming this extreme, for the additional slaughter of 100,000 head, an additional 22,600 metric tons of beef would enter the US market".

Page 20, paragraph 28: The eighth sentence should read: "The minimum increase in cow slaughter would account for only 2 per cent of production, and estimates suggested a 4-5 per cent drop in output in 1986".
