ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification under Article 4:4

Amendment of the Agreement between Canada and Malaysia

Note by the Chairman

Attached is a notification received from Canada of an amendment of the Article 4 agreement between Canada and Malaysia. Restraints on pants have been introduced from 15 April 1984 and on shorts from 1 July 1984. A licensing arrangement covering clothing items not subject to restraint or consultation levels has also been concluded between the parties.

[Paragraph continues]

1 The original agreement is contained in COM.TEX/SB/820

*English only/Anglais seulement/Inglés solamente
With reference to paragraph 4 of Article 4 of the
Arrangement Regarding International Trade in Textiles
(hereinafter referred to as the MFA), done at Geneva on
December 2, 1973, and to the Protocol extending the MFA,
done at Geneva, December 22, 1981, I have the honour to notify
the Textile Surveillance Body of an amendment to the
provisions of the current restraint arrangement concluded
between the Government of Canada and the Government of Malaysia.
The amendments provide for the inclusion of pants as of
April 15, 1984 and of shorts as of July 1st, 1984 under the
coverage of the current arrangement. I also have the honour
to notify the Textile Surveillance Body of the conclusion of
a Licensing Arrangement covering clothing items not covered
by the Memorandum of Understanding between the Government
of Canada and the Government of Malaysia relating to Export from
Malaysia of Certain Textiles and Textile Products for Import
into Canada as amended during the March, 1984 negotiations.

The modifications of the Memorandum of Understanding
agreed upon by the two Governments in March 1984, take into
consideration the circumstances currently affecting the
Canadian clothing market and the position of Malaysia as an
established supplier of that market. The textile products
subject to the modifications fall within the scope of the MFA.
The restraint levels applicable to exports of pants and shorts
from Malaysia for import into Canada were established taking
into consideration historical trading patterns and other
provisions contained in Article 4 of the MFA and its Protocol
of Extension.
In line with the MFA guidelines, the amendments contain provisions for an annual growth rate established at 6 percent. The flexibility provisions allow for a 7 percent swing between categories in the current arrangement, and a carry-over/borrow-forward of 11 percent the sub-limit for borrow-forward being 6 percent.

The Government of Canada believes these modifications in conformity with the provisions of the MFA and its Protocol of Extension and, as such, in keeping with the gradual liberalization of the Canadian import programme on clothing.

Accept, Sir, the renewed assurance of my highest consideration.

J.L. MacNeil
Minister
