ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification under Article 4:4

Bilateral Agreement between Sweden and Sri Lanka

Note by the Chairman

Attached is a notification received from Sweden of a bilateral agreement concluded with Sri Lanka for the period 1 August 1984 to 31 July 1988.

1 The previous bilateral agreement between the parties is contained in COM.TEX/SB/852

*English only/Anglais seulement/Inglés solamente
Dear Mr. Raffaelli,

Pursuant to Article 4:4 of the Arrangement Regarding International Trade in Textiles as extended through the 1981 Protocol, I hereby would like to notify the Textiles Surveillance Body of the conclusion of a four year bilateral agreement between Sri Lanka and Sweden. The agreement covers the period August 1, 1984 to July 31, 1988.

This agreement has been reached for the purpose of avoiding risks of further market disruption in Sweden, while ensuring an orderly development of exports from Sri Lanka to Sweden. The product categories in this agreement are of a similar scope as in other agreements notified by Sweden under the Arrangement as extended by the 1981 Protocol. The restraint groups are the same as in the preceding agreement between Sri Lanka and Sweden. Within the rest group sublevels have been established for three product categories.

As to the flexibility provisions in the agreement as well as the terms of growth, reference is made to Annex B of the Arrangement and paragraph 11 of the 1981 Protocol.

The situation for the Swedish textile industry is difficult. The level of production of made-up textiles articles has been reduced to less than half during the period 1973 - 1983. The number of persons employed in this sector has been further reduced by ten per cent in the years 1980 - 1983.
Imports of made-up articles increased heavily during 1980 but declined in 1981 due to weak demand and has since remained at a level which is still very high. Sweden still has the highest import penetration of textiles in the world.

For Sweden, being a small market with an exceptionally high level of imports and a low domestic production, the maintenance of a minimum viable production is of vital importance.

Copies of the Agreement and related documents are attached.

Yours sincerely,

\[signature\]

Bo Henrikson
Counsellor
AGREEMENT BETWEEN THE GOVERNMENT OF SWEDEN AND THE
DEVELOPING //C/41 00C OF SRI LANKA
REGARDING EXPORTS OF CERTAIN TEXTILE PRODUCTS FROM
SRI LANKA TO SWEDEN

Article 1

The following Agreement has been reached having
regard to the Arrangement Regarding International
Trade in Textiles bearing in mind particularly the
provisions of article 4 thereof and the provisions
of GATT document L/5276.

Article 2

This Agreement shall apply for the periods specified
in Annex I.

Article 3

The Government of Sri Lanka will limit exports to
Sweden of the textile products listed in Annex I to
this Agreement to the levels set out in that Annex.
The date of issue of shipping documents shall be
considered to be the date of exportation.
Article 4

(a) This Agreement shall apply to exports from Sri Lanka to Sweden of the textile products described in Annex I hereof, of cotton, wool or man-made fibres, or blend thereof, in which any or all of those fibres in combination represent either the chief value of the fibres or 50 per cent or more by weight (or 17 per cent or more by weight of wool).

(b) Notwithstanding the provisions of this Article this Agreement shall also apply to the products described in Annex I hereof, which are manufactured from impregnated fabrics as defined in Annex II of this Agreement.

Article 5

The Government of Sweden will admit imports of the textile products of Sri Lanka origin, listed in Annex I, provided that such imports are covered by an Export Certificate, as per specimen in Annex III. Such a document shall be issued by the Ministry of Textile Industries, be consecutively numbered, state the group number, and bear an endorsement that the consignments concerned have been approved and debited to the agreed group levels for exports to Sweden for the relevant period.
Article 6

(a) If in the period 1 August, 1983 to 31 July, 1984, the group/sub-group limits specified in column (f) of Annex I to the Agreement of 27 July, 1982 are not fully utilized, the Government of Sri Lanka may, after consultation with the Government of Sweden, during the period 1 August, 1984 to 31 July, 1985, approve the export of additional amounts (carryover) equivalent to such shortfalls provided that such exports:

1) are in the same groups/sub-groups where the shortfalls occurred;

2) do not exceed 3 per cent of the notional twelve months' limits of these groups/sub-groups specified in column (f) of Annex I to the Agreement of 27 July, 1982.

(b) If in any twelve months period of this Agreement, the group/sub-group limits specified in Annex I to this Agreement are not fully utilized, the Government of Sri Lanka may, after consultation with the Government of Sweden, during the subsequent restraint period, approve the export of additional amounts (carryover) equivalent to such shortfalls provided that such exports...
i) are in the same groups/sub-groups where the shortfalls occurred;

ii) do not exceed 3 per cent of the limits of those groups/sub-groups for the period during which the shortfalls occurred.

(c) During each of the periods in columns e–h of Annex I to this Agreement, the Government of Sri Lanka may, after consultations with the Government of Sweden, approve the export of amounts in excess of the group/sub-group limits specified in Annex I to this Agreement up to 3 per cent of these limits (carry forward) for the relevant period. Where specific group/sub-group limits have been increased by carry forward the Government of Sri Lanka shall inform the Government of Sweden of the carry forward quantities and debit these to the corresponding group/sub-group limits, which are or may be agreed upon for the subsequent period.

(d) During each of the periods in columns e–h of Annex I to this Agreement the Government of Sri Lanka may, after consultations with the Government of Sweden, approve the export of amounts in excess of the group/sub-group limits specified in Annex I to this Agreement up to 3 per cent (swing) of these limits. Where specific group/sub-group limits have been increased by swing a corresponding...
reduction shall be made in one or more of other group/sub-group limits. For the purpose of calculating swing, the conversion factors in Annex IV shall apply.

(e) During each of the periods in columns e - h of Annex I to this Agreement, the additional export quantities resulting from carryover, carry forward and swing taken together shall, for each specific group/sub-group limit, not exceed 3 per cent of the respective agreed limit.

Article 7

If the information available to the Swedish authorities shows that the quantitative limit for the category of products specified in an export certificate has already been reached or the unused portion of that limit is insufficient to cover the goods specified in the certificate, the said authorities may refuse to admit any quantity in excess of the quantitative limit. In this event the Government of Sweden shall inform the Government of Sri Lanka as soon as possible. Should any excess quantity be permitted to enter Sweden, the Sri Lanka authorities shall, upon information by the Swedish authorities, deduct the over-shipped quantity from the relevant level which is or may be agreed upon for the following restraint period.
Article 3

Both parties regard it as essential that exports to Sweden of goods listed in Annex I are evenly spaced throughout the period of agreement and that, in the allocation of quotas, due consideration is given to traditional patterns of trade. Accordingly, the Government of Sri Lanka undertakes to provide a procedure to achieve this.

Article 9

The Government of Sri Lanka will forward to the Government of Sweden, via the Embassy of Sweden in Colombo, quarterly statistics on a cumulative basis of the quantities of the groups 2, 3 and 10 and of the weight of the rest group, listed in Annex I, for which duly endorsed export certificates for exports to Sweden have been issued. The statistics shall reach the Government of Sweden within a period of two months from the month of reference.

Article 10

The Government of Sweden and the Government of Sri Lanka agree to consult each other, at the request of either party, if any problem should arise from the implementation of this Agreement. The Government of Sweden and the Government of Sri Lanka agree furthermore to enter into consultations, before the end of the period of agreement on the conditions of a new Agreement.

Article 11

The Government of Sri Lanka and the Government of Sweden agree to collaborate with a view to taking appropriate action to avoid circumvention of limitations by such devices as transhipment, re-routing, fraud etc.

Article 12

Either Government may terminate this Agreement before the end of the period of validity, provided that at least sixty days' notice is given. In such event the Agreement shall come to an end on the expiry of the period of notice.
Article 13

The annexes of this Agreement shall be considered as integral parts of the Agreement.

Article 14

This Agreement has been drawn up in two copies in the English language, each of these texts being equally authentic.

Done in Colombo on 2nd August, 1934.

Definition of "Impregnated Fabrics" for the purposes of Article 4

1. Fabrics of cotton, wool or man-made fibres or any blend containing one or more of those fibres in which either wool represents 17 per cent or more by weight or any or all of those fibres in combination represent 50 per cent or more by weight of the unfinished fabric shall be defined as "impregnated fabrics" where those fabrics have been impregnated, coated, covered or laminated with preparations of cellulose derivatives or of other artificial plastic materials whatever the nature of the plastic material (compact, foam, sponge or expanded).

2. The definition does not cover -
   a) fabrics which, after impregnation, coating, covering or lamination, cannot, without fracturing, be bent manually around a cylinder of a diameter of 7 mm at a temperature between 15 degrees C and 30 degrees C.

   b) fabrics either completely embedded in artificial plastic material or coated or covered on both sides with such material.
