Arrangement Regarding International Trade in Textiles

Notification under Article 4:4

Bilateral Agreement between Norway and Thailand

Note by the Chairman

Attached is a notification received from Norway of a bilateral agreement concluded with Thailand for the period 1 July 1984 to 31 December 1987.

1 In its notification under Article 2:1 (COM.TEX/SB/1007), Norway had informed the TSB that it had concluded an agreement with Thailand under the 1981 Protocol of Extension.

Dear Ambassador Raffaelli,

I have the honour to forward to you the attached notification to the Textiles Surveillance Body of a bilateral agreement between Norway and Thailand relating to exports of certain textile products for imports into Norway.

Yours sincerely,

Johan Iversen

H.E. Ambassador M. Raffaelli
Chairman
Textiles Surveillance Body
GATT
Geneva

This agreement covers the period from 1 July 1984 to 1 January 1985. It was initialled in Bangkok on 21 September 1984, implemented on a provisional basis from 1 July 1984, and it was signed on 12 October 1984. The agreement has been reached for the purpose of avoiding further market disruption or risks thereof in Norway, while ensuring an orderly development of Thailand's exports to Norway.

The product categories are made-up articles. Out of the 21 categories covered by the Agreement, 12 are under quota restrictions and the remaining 9 items are subject to an administrative system of surveillance. 7 of the 12 categories under restraint were until 1 July 1984 covered by the Norwegian global quota system previously notified under Art. XIX of the JATI. Concerning base levels for the restrained items, account has been taken of the restraint levels in the former bilateral
agreement between Norway and Thailand which applied for the period 1.1.19/8 - 31.12.1982. (The Norwegian request for consultations was submitted in April 1983.)

As to the flexibility provisions in the agreement as well as the rates of growth, reference is made to Annex B of the Arrangement and paragraph 11 of the 1981 Protocol.

The situation for the Norwegian textiles and clothing industries is difficult. The level of production of clothing (excl. knitwear) and the number of persons employed in this sector have been reduced to less than half during the period of 1973-1983. In 1980 the production of clothing (excl. knitwear) was more than 30 per cent higher than in 1983. Production and employment in the textiles and knitwear sectors have also declined continuously after 1980.

Imports of clothing (SITC 54) have increased substantially during the past few years, reaching a share of total domestic supply of 14% (in value terms) in 1982. The volume of imports in 1982 was two thirds higher than in 1974. After a small decline in volume in 1983, due to weaker demand, total imports have in 1984 increased by 18% in value. In fact, Norway has the world's highest
net imports per capita of textiles and clothing.

For Norway, being a small market with an exceptionally high level of import penetration and thus a low domestic production, the maintenance of a minimum viable production is of vital importance.

Bilateral Agreement between Norway and Malaysia

Note by the Chairman

Attached is a notification received from Norway of a bilateral agreement concluded with Malaysia for the period 1 July 1984 to 31 December 1987.

AGREEMENT

BETWEEN

THE GOVERNMENT OF THE KINGDOM OF NORWAY

AND

THE GOVERNMENT OF THE KINGDOM OF THAILAND

RELATING TO THE EXPORTS FROM THAILAND OF CERTAIN

TEXTILE PRODUCTS FOR IMPORTS INTO NORWAY

Introduction

This Agreement sets out the arrangements that have been made between the Government of the Kingdom of Norway and the Government of the Kingdom of Thailand regarding the exports of certain textile products from Thailand for imports into Norway.

2. These arrangements have been made having regard to the Arrangement Regarding International Trade in Textiles, (hereinafter referred to as "the MFA") as extended by the Protocol of 22.12.1981, bearing in mind particularly the provisions of Article 1;2, Article 4 and Article 6 of the MFA.

Coverage

3. These arrangements apply to Thailand’s export to Norway of the textile products listed in Annex A to this Agreement, when these are made of cotton, wool or man-made fibres, or blends thereof, in which one, or all of those fibres in combination represent either the chief value of the fibres or 50 per cent or more by weight (or 17 per cent or more by weight of wool). Notwithstanding these provisions, this Agreement shall also apply to the products described in Annex A which are manufactured from impregnated fabrics as defined in a note to Annex A.
Classification

4. For the purpose of classifying textile products in the appropriate category, the definitions and notes set out in Annex A will apply.

5. In case of divergent opinions between Thailand and the competent Norwegian authorities at the point of entry into Norway on the classification of products covered by this Agreement, consultations as provided for in Article 15 of this Agreement shall be held with a view to reaching agreement on the appropriate classification of the products concerned and to resolving any difficulties arising therefrom. For this purpose, the authorities of Thailand shall be informed by the competent authorities in Norway as soon as a case of divergent opinions on the classification of products arises.

Pending agreement on the appropriate classification and in order to avoid disruption of trade, the products in question shall be imported on the basis of the classification indicated by the competent Norwegian authorities at the point of entry, in conformity with the provisions of this Agreement.

Restraint levels

6. For products listed in Annex B to this Agreement, Thailand shall for each agreement period during the term of this Agreement restrain its exports to Norway to the limits set out in Annex B, or the limits modified as provided for in Article 7 of this Agreement.
Flexibility provisions

7. Any quantitative limit set out in Annex B may, after consultation between the Government of the Kingdom of Thailand and the Government of the Kingdom of Norway as provided for in Article 15 be exceeded in either year of any two subsequent agreement years by carry forward and/or carryover. Carryover and carry forward taken together shall not exceed 10 per cent, of which carry forward shall not represent more than 5 per cent.

Products covered by the Agreement without quantitative limits

8. Thailand shall issue certificates of origin for exports of textile products covered by this Agreement which are not subject to quantitative limits. A copy of this certificate of origin is attached as Annex D. The Government of the Kingdom of Norway shall automatically issue import licences upon presentation of certificates of origin as described above.

The Government of the Kingdom of Norway may request consultations in accordance with the provisions of Article 15 to seek to establish quantitative limits for such products when import licences issued by the Government of the Kingdom of Norway of that product reach a level corresponding to 0.5 per cent for Category 7 and 1.5 per cent for other categories of the preceding year's total imports into Norway of the product concerned.
In the event that a mutually satisfactory solution is not reached within the time period specified in Article 15, Thailand shall limit exports of the textile categories in question for the period beginning on the date of the request corresponding, at an annual level, to the level of exports of such categories recorded in the 12 months period preceding the date of the request for consultations.

Administration

9. Exports from Thailand to Norway of textile products listed in Annex B shall be subject to a double-checking system of export certification and import licensing as specified in Annex C of the Agreement.

Circumvention

10. Norway and Thailand agree to cooperate fully in dealing with problems relating to circumvention of the arrangements set out in this Agreement.

When information available to the Norwegian authorities indicates that products of Thai origin listed in Annex B to this Agreement have been imported into Norway by transshipment, rerouting or otherwise, in circumvention of the arrangements set out in this Agreement, Norway may ask for consultations as provided for in Article 15 of this Agreement, with a view to agree on an appropriate adjustment of the quantitative limits for the products concerned.
Seasonal fluctuations

11. The Government of the Kingdom of Thailand will endeavour to ensure that exports of textile products subject to quantitative limits are spaced out as evenly as possible each calendar year, due account being taken of normal seasonal factors.

Rules of origin

12. The origin of the products covered by this Agreement shall be determined in accordance with the rules in force in Norway and the procedures for control of the origin of the products set out in Annex C.

Re-exports

13. Exports from Thailand to Norway of textile products covered by this Agreement shall not be subject to the quantitative limits established in Annex B, provided that the export certificate certifies that the products concerned are for re-export outside Norway.

Where the competent Norwegian authorities have evidence that products exported from Thailand and set off by Thailand against a quantitative limit established in Annex B have been subsequently re-exported outside Norway, the Norwegian authorities shall notify Thailand of the quantities involved. Upon receipt of such
notification, Thailand may authorize exports for the current calendar year of identical quantities of products within the same category, which shall not be set off against the quantitative limits established in Annex B.

**Exchange of statistics**

14. For all products covered by this Agreement the Government of the Kingdom of Thailand undertakes to provide the Government of the Kingdom of Norway with quarterly statistics of all export certificates and certificates of origin issued by the authorities for each category for each quota period. For products listed in Annex B, these statistical reports shall also set out

i. the maximum export level for each category for the current quota period,

ii. the adjusted limit if the quota has been adjusted as provided for in Article 7 of this Agreement, and

iii. the rate of utilization of the quota.

Each report shall be transmitted before the end of the month following the last month covered by the quarterly report.

The Government of the Kingdom of Norway will provide the Government of the Kingdom of Thailand with quarterly statistics of total imports and imports licences issued for exports from Thailand of all categories covered by this Agreement.
Both parties agree to supply each other with statistical information on all textile exports or imports by country of destination or origin, when requested.

Consultations

15. The Government of the Kingdom of Thailand and the Government of the Kingdom of Norway agree to consult at the request of either government, on any question arising in the application of this Agreement.

Any request for consultations shall be notified in writing to the other party, together with a statement explaining the reasons and circumstances that led to the request.

The parties shall enter into consultations within 20 days at the latest from when the request was made, with a view to arriving at a mutually satisfactory conclusion in conformity with the provisions of the MFA within a further 30 days at the latest.

Other textile products

16. The Norwegian Government reserves its rights under the MFA with respect to textile products not covered by this Agreement.

General

17. The present Agreement shall enter into force when the parties have notified each other that all internal procedures which are necessary for the fulfilment of the obligations in the Agreement have been completed.
Provided that such notifications have taken place, the Agreement shall apply with effect from 1 July, 1984 until 31 December, 1987 unless this is changed by application of the provisions of Article 18.

18. Either party may at any time propose modifications to this Agreement. Such proposals shall lead to consultations in accordance with the procedures outlined in Article 15.

Either party may at any time denounce this Agreement provided that at least 60 days' notice is given. In that event the Agreement shall come to an end on the expiry of the period of notice.

19. The Annexes to this Agreement shall be considered as an integral part thereof.

This Agreement has been drawn up in two copies in the English language, each of these texts being equally authentic.

DONE at Bangkok on 12th October 1984.

4. The competent Norwegian authorities must be notified forthwith of the withdrawal or alteration of any export certificate already issued.
