ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification under Article 4:4

Bilateral Agreement between Norway and Korea

Note by the Chairman

Attached is a notification received from Norway of a bilateral agreement concluded with Korea for the period 1 January 1985 to 31 December 1989.

1For the period 1 January to 31 December 1984 imports of certain products were subject to a Memorandum of Understanding, notified by Norway under Article 2:1. Norway had also reported that it had initialled a bilateral agreement with Korea. (COM.TEX/SB/1007)

*English only/Anglais seulement/Inglés solamente
Dear Ambassador Raffaelli,

I have the honour to forward to you the attached notification to the Textiles Surveillance Body of a bilateral agreement between Norway and Korea, relating to exports of certain textile products for imports into Norway.

Yours sincerely,

Johan Iversen

H.E. Ambassador M. Raffaelli
Chairman
Textiles Surveillance Body
GATT
GENEVA
SHORT REASONED STATEMENT

This agreement covers the period from 1 January 1985 to 31 December 1989. It was initialled in Seoul on 2 July 1984 and finalized on 20 December 1984 by an exchange of notes. The agreement has been reached for the purpose of avoiding further market disruption or risks thereof in Norway, while ensuring an orderly development of Korea’s exports to Norway.

The product categories cover principally clothing articles. Out of the 23 categories covered by the Agreement, 12 are under quota restrictions and the remaining 11 items are subject to an administrative system of surveillance. 7 of the categories in the Agreement were until 1 July 1984 covered by the Norwegian global quota system previously notified under Art. XIX of the GATT. For the period 1 July 1984 to 31 December 1984, these restraints were notified under MFA’s Article 2.1, cf. COM.TEX/SB/1007.
Concerning base levels for the restrained items, account has been taken of the level of imports from Korea in the 12-month period preceding the request for consultations, as well as the levels of former bilateral quotas agreed through annual consultations based on the Long Term Arrangement agreed upon in 1968. (The Norwegian request for consultations was submitted at the beginning of March 1984.)

As to the flexibility provisions in the agreement as well as the rates of growth, account was taken of Annex B of the Arrangement and paragraph II of the 1981 Protocol.

The situation for the Norwegian textiles and clothing industries is difficult. The level of production of clothing (excl. knitwear) and the number of persons employed in this sector have been reduced to less than half during the period of 1973-1983. In 1980 the production of clothing (excl. knitwear) was more than 30 per cent higher than in 1983. Production and employment in the textiles and knitwear sectors have also declined continuously after 1980.

Imports of clothing (SITC 34) have increased substantially during the past few years, reaching
a share of total domestic supply of 74% (in value terms) in 1982. The volume of imports in 1982 was two thirds higher than in 1974. After a small decline in volume in 1983, due to weaker demand, total imports have in 1984 increased by 18% in value. In fact, Norway has the world's highest net imports per capita of textiles and clothing.

For Norway, being a small market with an exceptionally high level of import penetration and thus a low domestic production, the maintenance of a minimum viable production is of vital importance.
AGREEMENT BETWEEN

THE GOVERNMENT OF THE KINGDOM OF NORWAY

AND

THE GOVERNMENT OF THE REPUBLIC OF KOREA

RELATING TO THE EXPORTS FROM THE REPUBLIC OF KOREA

OF CERTAIN TEXTILE PRODUCTS FOR IMPORTS INTO NORWAY
Introduction

1. This Agreement sets out the arrangements that have been made between the Government of the Kingdom of Norway and the Government of the Republic of Korea regarding the exports of certain textile products from Korea for imports into Norway.

2. These arrangements have been made having regard to the Arrangement Regarding International Trade in Textiles (hereinafter referred to as "the MFA") as extended by the Protocol of 22.12.1981, bearing in mind particularly the provisions of Article 1:2 and Article 4 of the MFA.

Coverage

3. These arrangements apply to Korea's export to Norway of the textile products listed in Annex A to this Agreement, when these are made of cotton, wool or man-made fibres, or blend thereof, in which any, or all of those fibres in combination represent either the chief value of the fibres or 50 percent or more by weight (or 17 percent or more by weight of wool) of the product. Notwithstanding these provisions, this Agreement shall also apply to the products described in Annex A which are manufactured from impregnated fabrics as defined in a note to Annex A.
Classification

4. For the purpose of classifying textile products in the appropriate category, the definitions set out in Annex A will apply.

5. In case of divergent opinions between Korea and the competent Norwegian authorities at the point of entry into Norway on the classification of product covered by this Agreement, consultations as provided for in Article 15 of this Agreement shall be held with a view to reaching agreement on the appropriate classification of the products concerned and to resolving any difficulties arising therefrom. For this purpose, the authorities of Korea shall be informed by the competent authorities in Norway as soon as a case of divergent opinions on the classification of products arises.

Pending agreement on the appropriate classification and in order to avoid disruption of trade, the products in question shall be imported on the basis of the classification indicated by the competent Norwegian authorities at the point of entry, in conformity with the provisions of this Agreement.

Restraint levels

6. For products listed in Annex B to this Agreement, Korea shall for each quota period during the term of this Agreement restrain its exports to Norway to the limits set out in Annex B, or the limits modified as provided for in various articles of this Agreement.
Flexibility provisions

7. Any quantitative limit set out in Annex B may, after notification to and statistical verification by the competent Norwegian authorities be exceeded in either year of any two subsequent agreement years by carry forward and/or carry over. Carry forward and carry over taken together shall not exceed 8 percent, of which carry forward shall not represent more than 4 percent.

The statistical verification referred to above shall be completed as soon as possible and not later than 10 working days from the date of the receipt of the notification.

Products covered by the Agreement without quantitative limits

8. Imports of textile products covered by this Agreement which are not subject to quantitative limits shall be subject to a system of automatic import licensing.

When imports of a product listed in Annex A not subject to quota restraint have reached a level corresponding to 0.5 percent for category 7, or 1.5 percent for other categories, of the preceding year's total imports into Norway of that product, and its import causes or threatens to cause market disruption as defined in Annex A of the MFA, the Norwegian Government may request consultations in order to establish a quantitative limit for the product concerned.
Pending a mutually acceptable solution through these consultations, the Norwegian Government may fix a quantitative limit at 103% of the volume reached by imports of the product in question in the twelve-month period preceding notification.

Administration

9. Exports from Korea to Norway of textile products listed in Annex B shall be subject to a double-checking system of export and import licencing as specified in Annex C of the Agreement.

Circumvention

10. The Government of Norway and the Government of Korea agree to cooperate fully in dealing with problems relating to circumvention of the arrangements set out in this Agreement.

When information available to the Norwegian authorities indicates that products of Korean origin listed in Annex B to this Agreement have been imported into Norway by transshipment, rerouting or otherwise, in circumvention of the arrangements set out in this Agreement, Norway may ask for consultations as soon as possible as provided for in Article 15 of this Agreement, with a view to agreeing on an appropriate adjustment of the quantitative limits for the products concerned.
If the parties fail to reach a mutually satisfactory solution within a period of 60 days from the date when the request for consultations was made, the Norwegian authorities shall, if clear and verified evidence of circumvention has been provided, have the right to carry out a compensatory reduction of the corresponding restraint level, for the current or the following calendar year.

Seasonal fluctuations

11. The Government of Korea will endeavour to ensure that exports of textile products subject to quantitative limits are spaced out as evenly as possible each calendar year, due account being taken of normal seasonal factors.

Rules of origin

12. The origin of the products covered by this Agreement shall be determined in accordance with the rules in force in Norway and the procedures for control of the origin of the products set out in Annex C.

Re-exports

13. Exports from Korea to Norway of textile products covered by this Agreement shall not be subject to the quantitative limits established in Annex B, provided that the export licence certifies that the products concerned are for re-export outside Norway.
Where the competent Norwegian authorities have evidence that products exported from Korea and set off by Korea against a quantitative limit established in Annex B have been subsequently re-exported outside Norway, the Norwegian authorities shall notify the Government of Korea of the quantities involved. Upon receipt of such notification, the Government of Korea may authorize exports for the current calendar year of identical quantities of products within the same category, which shall not be set off against the quantitative limits established in Annex B.

Exchange of statistics

14. For all products covered by this Agreement the Government of Korea undertakes to provide the Government of Norway with quarterly statistics of all export licences issued by the authorities for each category for the current quota period. These statistical reports shall also set out

i. the maximum export level for each category for the relevant quota period.

ii. the modified limit if the quota has been modified as provided for in Article 7 of this agreement, and

iii. the rate of utilization of the quota.

The Government of Norway will provide the Government of Korea with quarterly statistics of total imports and licences issued for imports from Korea of all categories covered by this Agreement.
Each report shall be transmitted before the end of the second month following the quarter covered by the report.

Both parties agree to supply promptly any other pertinent and readily available statistical information requested by the other party.

**Consultations**

15. The Government of Norway and the Government of Korea agree to consult at the request of either government, on any question arising in the application of this Agreement.

Any request for consultations shall be notified in writing to the other party together with a statement explaining the reasons and circumstances that led to the request.

The parties shall enter into consultations within 30 days at the latest from when the request was made, with a view to arriving at a mutually satisfactory conclusion in conformity with the provisions of the MFA within a further 30 days at the latest.

**Other textile products**

16. Both parties reserve their rights under the MFA with respect to textile products not covered by this Agreement.
The present Agreement shall enter into force when the parties have notified each other that all internal procedures which are necessary for the fulfilment of the obligations in the Agreement have been completed.

Provided that such notifications have taken place, the Agreement shall apply with effect from 1 January 1985 until 31 December 1989 unless this is changed by application of the provisions of Article 18 of this Agreement.

Either party may at any time propose modifications to this Agreement. Such proposals shall lead to consultations in accordance with the procedures outlined in Article 15.

Either party may at any time denounce this Agreement provided that at least 60 days' notice is given. In that event the Agreement shall come to an end on the expiry of the period of notice.

The Annexes to this Agreement shall be considered as an integral part thereof.

Done in two originals at Seoul in the English language, both texts being equally authentic.

21. Pieces Under garments of woven material, women's and girls' wear (except night wear)

24. Kgs. Fabrics of man-made fibres, except cord fabrics. Woven fabrics of cotton except cord fabrics gauze for dressings, with not more than 32 warp and weft threads per square cm: unbleached fabric weighing 720 grs or more per square meter.

Woven fabrics of man-made fibres (discontinuous or waste).

25. Kgs. Table linen, toilet linen and kitchen linen; curtains and other furnishing articles.
NOTE TO ANNEX A

Definition of "Impregnated Fabrics" for the purposes of Article 3

1. Fabrics of cotton, wool or man-made fibres or any blend containing one or more of those fibres in which either wool represents 17 percent or more by weight or any or all of those fibres in combination represent 50 percent or more by weight of the unfinished fabric shall be defined as 'impregnated fabrics' where those fabrics have been impregnated, coated, covered or laminated with preparations of cellulose derivatives or of other artificial plastic materials whatever the nature of the plastic material (compact, foam, sponge or expanded).

2. The definition does not cover -

a. Fabrics which, after impregnation, coating, covering or lamination, cannot, without fracturing, be bent manually around a cylinder of a diameter of 7 mm at a temperature between 15°C and 30°C.

b. Fabrics either completely embedded in artificial plastic material or coated or covered on both sides with such material.

ANNEX C

ADMINISTRATIVE COOPERATION

1. Products originating in Korea for export to Norway in accordance with the arrangements established by this Agreement shall be accompanied by a certificate of Korean origin conforming to the specimen attached as Annex D, including full and detailed description of the goods.

The certificate of Korean origin shall be issued by the Ministry of Trade and Industry.

2. The competent authorities of Korea shall issue an export license in respect of all consignments from Korea for exports to Norway of products covered by Annex B. The export license shall conform to the specimen attached as Annex E.

3. For products covered by Annex B, the authorities of Korea shall issue export licences up to the quantitative limits agreed through this Agreement (eventually modified as provided for by this Agreement). The export licence must certify that the quantity of the product in question has been set off against the quantitative limit prescribed for the category of the product in question.

4. Each export licence shall cover only one of the categories of products listed in Annex B to this Agreement.
5. Exports shall be set off against the quantitative limits established for the year in which shipment of the goods has been effected.

6. The presentation of an export licence, in application of Paragraph 7 below, shall be effected not later than 28 February of the year following that in which the goods covered by the licence have been shipped.

7. Importation into Norway of textile products subject to quantitative limits shall be subject to the presentation of appropriate import documents. The competent Norwegian authorities shall issue such import documents automatically within ten working days of the presentation by the importer of the original of the corresponding export licence.

8. The competent Norwegian authorities must be notified forthwith of the withdrawal or alteration of any export licence already issued. The competent Norwegian authorities shall cancel the already issued import documents if the corresponding export licence has been withdrawn.
However, if the competent Norwegian authorities have not been notified about the withdrawal or cancellation of the export licence until after the products have been imported into Norway, the quantities involved shall be set off against the quantitative limit for the category and quota year in question, and the authorities of Korea shall be informed as soon as possible.

9. If the competent Norwegian authorities find that the total quantities covered by export certificates issued by the authorities of Korea for a particular category in any quota period exceed the quantitative limit established for that category, the said authorities may suspend the further issue of import documents. In this event, the competent Norwegian authorities shall immediately inform the authorities of Korea and the special consultation procedure set out in Article 15 of the Agreement shall be initiated forthwith.

10. Exports of Korean origin not covered by export licences issued by the authorities of Korea in accordance with the provisions of this Annex may be refused the issue of appropriate import documents by the competent Norwegian authorities.

11. The export licence and the certificate of Korean origin may comprise additional copies duly indicated as such. They shall be made out in English. If they are completed by hand, entries must be in ink and in printscript.
Only the original, clearly marked "original" shall be accepted by the competent authorities in Norway as being valid for the purposes of export to Norway in accordance with the arrangements established by this Agreement.

12. Each export licence and certificate of Korean origin shall bear a serial number by which it can be identified, and contain the information required, cf. the specimens attached as Annexes E and D.

The export licence shall also contain name and address of manufacturer, if different from exporter, and a full and detailed description of the goods, including tariff classification numbers, if possible both in the systems of the exporting country and of Norway.

13. In the event of theft, loss or destruction of an export licence or a certificate of Korean origin, the exporter may apply to the competent governmental authority which issued the document for a duplicate to be made out on the basis of the export documents in his possession. The duplicate of any such certificate or licence so issued shall bear the endorsement "duplicate".

The duplicate must bear the date of the original export licence or certificate of Korean origin.
14. The Government of Korea shall send the Norwegian Ministry of Trade the names and addresses of the governmental authorities competent for the issue and verification of export licences and certificates of Korean origin together with specimens of the stamps used by these authorities. The Government of Korea shall also notify the Ministry of any change in this information.
