Dear Ambassador Raffaelli,

Pursuant to Articles 7 and 8 of the Arrangement Regarding International Trade in Textiles (hereinafter referred to as the MFA) done at Geneva on December 20, 1973 and to the Protocol extending the MFA, done at Geneva on July 31, 1986, I have the honour to notify you of the conclusion of a new five-year bilateral Memorandum of Understanding between the Government of Canada and the Government of the People's Republic of Bulgaria relating to the export from Bulgaria of certain textiles and textile products for import into Canada effective from January 1, 1987 to December 31, 1991. This replaces a previous arrangement which was in place between the two countries from January 1, 1982 to December 31, 1986.

The current arrangement takes into account circumstances facing the Canadian clothing market and the position of Bulgaria as a supplier to this market. It also provides for improved access for Bulgaria to the Canadian textile and clothing market.

The arrangement virtually maintains the same simplified classification system of the previous arrangement. In aggregate, there are only six clothing categories (winter outerwear; tailored collar shirts; sweaters; jackets and coats; fine suits; sportswear). Restraint coverage has been expanded to include sportswear because of the recent escalation of imports of this product from Bulgaria with corresponding restraint level fully
reflecting the volume of imports. In addition, the consultation levels of the previous arrangement on three clothing categories (pants, shorts, overalls, coveralls; shirts, blouses; rainwear) are maintained in the current arrangement.

The restraint levels agreed between the parties represent a total increase of 51,494 units (which includes 25,534 units for tailored-collar shirts, 24,072 units for sweaters, 1,013 units for coats and jackets and 875 units for fine suits) over the restraint levels of the last year of the previous arrangement.

Growth rates for individual categories vary from 3 per cent to 6 per cent. Flexibility provisions are generally along the lines contained in the previous arrangement. Swing provisions are 5 per cent and carry over and borrow forward provisions are 10 per cent and 5 per cent, respectively. Combined flexibility has been improved from 11 per cent in the previous arrangement to 12 per cent.

The current arrangement contains a provision to consult in the event of difficulties arising from a sharp and substantial increase, by comparison to corresponding imports in the preceding restraint period, of imports of items subject to quantitative limits.

As in the past, there are provisions for: the exchange of statistics, crediting back to quantitative limits re-exports from Canada of restrained items, the spacing out of exports, consultations concerning the equity of restraints and, general consultations on matters affecting trade in textiles and textile products between the two countries, including consultations on items not covered by restraints in the event of market disruption in Canada, or threat thereof. Provisions encouraging imports of childrens' and infants' clothing have also been included in this arrangement.

In recent years there has been considerable disruption to the Canadian clothing and textile market caused by a sharp and substantial increase in imports at prices substantially below those prevailing for similar goods produced in Canada. The average growth rate for low-cost clothing imports, on a unit volume basis, was 11 per cent between 1981 and 1985. This compares with an estimated annual market growth of approximately 2.3 per cent. As a result, the Canadian clothing industry has seen its share of the domestic market decline, on a unit volume basis, from 69 per cent
in 1981 to 57 per cent in 1985. During that period the Canadian Textile and Clothing Board estimates that import growth may have cost as many as 15,000 Canadian jobs. Apparel imports increased by approximately 10 per cent in 1986 leading to an expected further deterioration in the situation facing domestic producers. A complicating factor has been the highly erratic pattern of imports, with increases in low-cost clothing imports of 26 and 15 per cent during 1983 and 1984, respectively. This has seriously affected the ability of the Canadian government and manufacturers to rationally plan and implement adjustment measures.

A copy of the Memorandum of Understanding is attached.

Accept, Sir, the renewed assurances of my highest consideration.

Yours sincerely,

J. Gero
Counsellor
MEMORANDUM OF UNDERSTANDING
BETWEEN
THE GOVERNMENT OF CANADA
AND
THE GOVERNMENT OF THE PEOPLE'S REPUBLIC OF BULGARIA
RELATING TO THE EXPORT FROM THE
PEOPLE'S REPUBLIC OF BULGARIA
OF
CERTAIN TEXTILE PRODUCTS
FOR IMPORT INTO CANADA

Introduction

1. This Memorandum of Understanding (MOU) sets out the arrangements that have been agreed between the Governments of Canada and of the People's Republic of Bulgaria regarding the export of certain textile products from the People's Republic of Bulgaria for import into Canada.

Restraint Periods

2. These arrangements will apply for the periods commencing on January 1, 1987 and ending on December 31, 1991; of which the first restraint period will commence on January 1, 1987 and end on December 31, 1987 and the four (4) subsequent restraint periods will be for the calendar years 1988, 1989, 1990 and 1991.

Restraint Levels

3. Except as provided for in paragraphs 13 to 18 below, the Government of the People's Republic of Bulgaria will restrain its exports to Canada of the textile products described in Annex I for the first period as defined in paragraph 2 to the limits specified in column (C) therein.

4. Except as provided for in paragraphs 13 to 18 below, for the four calendar year periods commencing January 1, 1988 and ending on December 31, 1991, the Government of the People's Republic of Bulgaria will restrain its exports to Canada of the textile products described in Annex I to the limits specified in column (C) therein advanced on an annual basis by the growth rate specified in column (D).

Coverage

5. For the purpose of classifying textile products in the appropriate category, the definitions and notes set out in Annex II will apply.

Administration

6. These arrangements will be implemented on the basis of the export control system operated by the Government of the People's Republic of Bulgaria.
7. The Government of Canada will admit imports of the textile products which are described in Annex II and are subject to a specific quantitative limit in Annex I, provided such imports are covered by an original copy of a Bulgarian "Export Licence" certified and issued by the proper authority to the effect that the imports covered by the licence have been debited to the applicable quantitative limit (restraint) as set out in Annex I.

8. For the purpose of implementing these arrangements, the date of export from the People's Republic of Bulgaria will be used to determine within which restraint period any textile products will be counted.

9. The export licences issued by the Ministry of Trade of the People's Republic of Bulgaria in respect of products subject to restraint levels as specified in Annex I will contain the following information:

1. Country of destination,
2. Country of origin,
3. Licence number,
4. Importer's name and address,
5. Exporter's name and address,
6. Item number and description of product as set out in Annex I of the MOU,
7. Quantity expressed in the units as designated in Annex I of the MOU,
8. F.O.B. or C.I.F. value,
9. Certification by the proper authority (paragraph 7),
10. Restraint Period (year).

10. In the event any quantity covered by an export licence is not shipped, the Ministry of Trade of the People's Republic of Bulgaria will notify the Government of Canada of such quantities which may be credited by the Ministry of Trade of the People's Republic of Bulgaria to the appropriate restraint level.

11. The Government of the People's Republic of Bulgaria will endeavour to ensure that exports of all textile products which are listed in Annex II and are subject to restraint levels as per Annex I are spaced out as evenly as possible during each restraint period, due account being taken of seasonal factors and of normal channels of trade.
12. If, on the basis of export data provided by the Ministry of Trade of the People's Republic of Bulgaria, the Government of Canada ascertains that there is a sharp and substantial increase in the concentration of exports of textile products, other than that attributable to normal seasonal factors and normal channels of trade, it may request consultations in accordance with the provisions of paragraphs 26 and 28 with a view to remedying this situation.

Swing

13. Subject to the specific limitations set out in Annex I, and following notification to the Canadian authorities, any restraint level may be exceeded by the percentage shown in column (E) provided that an equivalent amount, through application of the conversion factors shown in column (H), is deducted from any other restraint level. When any restraint level is exceeded by the application of swing, the Ministry of Trade of the People's Republic of Bulgaria will so indicate in subsequent quarterly statistical reports.

Carry-Over/Carry-Forward

14. Following notification to the Canadian authorities of the quantities involved, portions of any quantitative limit set out in Annex I which are not used during the restraint period may be carried over and added to the corresponding quantitative limit for the following restraint period. The restraint level for the latter restraint period will be increased within the higher percentage limit set out in column (F) of Annex I.

15. Following notification to the Canadian authorities of the quantities involved, any restraint level may be increased within the lower percentage limit set out in column (F) of Annex I by an amount advanced from the corresponding restraint level for the following restraint period. The restraint level for any such following restraint period will be reduced by an amount equal to the amount so advanced.

16. Portions of any restraint limit which remain unused from the restraint period commencing January 1, 1986 (as covered by the preceding bilateral arrangement) may, after notification, be carried over and added to the appropriate restraint level for the restraint period commencing January 1, 1987. Such carry-over will be within the higher percentage limit set out in column (F) of Annex I of this MOU.
17. Notwithstanding the foregoing, the carry-over/carry-forward provisions may be used in combination only up to the higher percentage limit set out in column (F) of Annex I.

18. Further to paragraphs 13 to 17 above, where applicable, the restraint levels in column (C) of Annex I may not be increased by the combined use of swing, carry-over and carry-forward by more than the percentage indicated in column (G) of Annex I.

Exchange of Statistics

19. The competent authorities will exchange such other statistical data relating to the exports of textile products not subject to these arrangements as may reasonably be required.

20. The Ministry of Trade of the People's Republic of Bulgaria will provide the Government of Canada with quarterly statistics relating to exports of the textile products listed in Annex II which are licensed for export to Canada pursuant to Annex I and Annex III.

21. When submitting the quarterly statistics mentioned in paragraph 20, the Ministry of Trade of the People's Republic of Bulgaria undertakes to include the following information:

   a. Item number and description of goods as set out in Annex I or Annex III.
   b. Original and adjusted restraint level for the restraint period.
   c. Total quantity issued for the restraint period to date in the units designated in Annex I or Annex III.
   d. Indication of any utilization of swing, carry-over or carry-forward provisions and the quantities involved as provided for in paragraphs 13 to 18 above.

This information will be provided as soon as possible following the end of each quarter.

23. Both Governments reserve the option of requesting, should it be necessary, more specific and detailed information.

Equity

24. Should either Government consider, as a result of these arrangements, that it is placed in an inequitable position compared with any third party, that Government may request the other to consult as provided in paragraphs 26 and 28 with a view to implementing appropriate remedial measures.

Re-Exports

25. The Government of Canada will, so far as possible, inform the Ministry of Trade of the People's Republic of Bulgaria when imports into Canada of textiles and textile products subject to these arrangements are subsequently re-exported from Canada. Where such re-exports have been debited by the Ministry of Trade of the People's Republic of Bulgaria to quantitative limits, the Ministry of Trade of the People's Republic of Bulgaria may then credit the amount involved to the appropriate quantitative limits.

Consultations

26. Either Government has the right to request consultations with the other Government on any matter arising from the implementation or operation of these arrangements or on any matter germane to their trade in textiles and textile products. Such consultations will be governed by the following:

- Any request for consultations will be notified in writing to the other Government;

- The request for consultations will be accompanied by or followed within a reasonable period (and in any case not later than twenty-one days following the request) by a statement setting out the reasons and circumstances which, in the opinion of the requesting Government, justify the submission of such a request;
- The other Government will accept such a request and such consultations will be held within thirty days of the date of notification of the request;

- Both Governments will enter into consultations with a view to reaching a mutually acceptable conclusion within thirty days of the date on which actual consultations commence.

27a. In the event that the Government of Canada believes that imports from the People's Republic of Bulgaria of products listed in Annex II not covered by specific limits or consultation levels are, due to a real risk of market disruption, threatening to impede the orderly development of trade between the two countries, the Government of Canada may request consultations with the Government of the People's Republic of Bulgaria with a view to easing or avoiding such market disruption. The Government of Canada will provide the Government of the People's Republic of Bulgaria at the time of the request with detailed up to date information which is indicative of the market situation and in the opinion of the Government of Canada shows a real risk of market disruption.

27b. The Government of the People's Republic of Bulgaria agrees to consult with the Government of Canada within 30 days of receipt of the request for consultations. Both Governments agree to make every effort to reach agreement on a mutually satisfactory resolution of the issue within 90 days of the receipt of such request, unless this period is extended by mutual agreement.

27c. During the 90-day period, the Government of the People's Republic of Bulgaria agrees to hold its exports to Canada of the products concerned to a level no greater than 25 per cent of the amount entered into Canada, as recorded by Canadian import permit statistics, where available, during the latest 12 months prior to the month in which the request for consultations was made.
27d. If no mutually satisfactory solution is reached during these consultations, the Government of Canada may establish a specific limit for the duration of these arrangements for shipments of the product concerned exported on and after the conclusion of the 90-day period referred to above. This limit will not be less than the amount of imports which are entered into Canada during the first 12 of the most recent 14 months preceding the month in which the request for consultations was made.

27e. If a specific limit is established under paragraph 28d in the course of a calendar year, it will be prorated to correspond to the time period between the conclusion of the 90-day period referred to in paragraph 27d and the end of the calendar year.

28. Any consultations held under these provisions will be approached by both Governments in a spirit of cooperation and with a desire to reconcile the differences between them.

Consultation Levels

29. The Government of the People's Republic of Bulgaria will require that all exports to Canada of the textile products subject to a consultation level listed in Annex III be covered by an original copy of an "Export Licence" endorsed and issued by the proper Bulgarian authority.

30. The Canadian authority may request consultations with the Bulgarian authority with a view to reaching agreement on an appropriate level of restraint for any textile products listed in Annex III, whenever, in the view of the Canadian authority, conditions in the Canadian market are such that a limitation on further trade in any such textile products may be necessary to eliminate real risk of market disruption. For those products listed in Annex III, the Canadian authority undertakes not to seek consultations until imports into Canada reach at least the respective consultation levels during any one specific restraint period.

31. Until such time as a mutually satisfactory conclusion has been reached, the Bulgarian authority undertakes, if so requested by the Canadian authority, to limit shipments from the date on which Canada requests consultations, in order to ensure that exports of the products in question to Canada do not exceed 106% of the consultation level listed in Annex III.
32. The parties will consult following the communication of the statement referred to in paragraph 30 above, and will use their best efforts to reach a mutually satisfactory conclusion within 30 days of the request for consultations.

Revisions and Termination

33. Either Government may at any time propose revisions to the terms of these arrangements with a view to improving Canada/Bulgaria trade in textile products.

34. Either Government may terminate these arrangements by written notice to the other Government, effective at any time but without prejudice to the restraint levels for the year in which notice is given.

Annexes

35. The Annexes to this Memorandum of Understanding will be considered an integral part of it.

Transitional Arrangements

36. Any difficulties which may arise as a consequence of the transition from the 1986 arrangement to these arrangements will be brought immediately to the attention of the one Government by the other Government and efforts will be made by both Governments, through consultations or other means, to resolve such difficulties to their mutual satisfaction.

Final Provisions

37. This Memorandum of Understanding will become effective on January 1, 1987 subsequent to an exchange of notes between the two Governments confirming their acceptance of these arrangements.
