ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification under Article 4

Agreement between Norway and Romania

Note by the Chairman

Attached is a notification received from Norway of a bilateral agreement initialled with Romania and in de facto application from 1 January 1988 to 31 December 1991.¹

¹The previous bilateral agreement between the parties is contained in COM.TEX/SB/1077.

*English only/Anglais seulement/Inglés solamente
Dear Sir,

Pursuant to Article 4:4 of the Arrangement Regarding International Trade in Textiles as extended by the 1986 Protocol, I am pleased to notify the Textiles Surveillance Body of the conclusion of a bilateral agreement between the Government of the Kingdom of Norway and the Government of the Socialist Republic of Romania.

The agreement which covers the period 1 January 1988 – 31 December 1991, was initialled in Oslo 26 February 1988, signed in Bucharest 12 October 1988 and has been implemented on a provisional basis from 1 January 1988.

Yours sincerely,

Martin Huslid
Ambassador
Permanent Representative of Norway.

H.E. Mr. Marcello Raffaelli
Ambassador
Chairman of the Textiles Surveillance Body
GATT
Geneva
Pursuant to Article 4:4 of the Arrangement Regarding International Trade in Textiles as extended by the 1986 Protocol, I am pleased to notify the Textiles Surveillance Body of the conclusion of a bilateral agreement between the Government of the Kingdom of Norway and the Government of the Socialist Republic of Romania.

The agreement which covers the period 1 January 1988 - 31 December 1991, was initialled in Oslo 26 February 1988, signed in Bucharest 12 October 1988 and has been implemented on a provisional basis from 1 January 1988.

The agreement has been reached for the purpose of avoiding market disruption or risks thereof in Norway, while ensuring an orderly development of Romania's exports to Norway.

The former bilateral MFA-agreement between Norway and Romania included 21 categories, of which 9 were subject to quota-limitations, while the remaining 12 were subject to an administrative system of surveillance. The new agreement covers a total of 8 categories, all subject to quota-limitations.

Increases in base levels vary between 3 and 19 per cent.

In the new agreement, growth rates vary between 1 - 1.5 per cent, while growth rates in the previous agreement were in the range of 0.4 - 1.5 per cent.

In contrast to the former agreement, this new agreement includes all types of flexibility for all categories under quota restriction. Carry forward/carryover are in all cases higher than in the previous agreement.

As to the flexibility provisions in the agreement as well as the rates of growth, reference is made to Annex B of the Arrangement and paragraph 12 of the 1986 Protocol of Extention.
The agreement covers a newly restraint for bed linen to avoid risk of market disruption in this extremely sensitive product category for Norwegian producers.

Norway is a small market, with an exceptionally high level of imports and a correspondingly low level of domestic production, and is thus particularly exposed to the problems arising from imports causing market disruption. In spite of this Norway has, in its bilateral MFA-agreement with Romania, agreed to reductions in the number of categories covered by the agreement, increases in growth rates and introduction of all kinds of flexibility into the agreement.
AGREEMENT BETWEEN

THE GOVERNMENT OF THE KINGDOM OF NORWAY

AND

THE GOVERNMENT OF THE SOCIALIST REPUBLIC OF ROMANIA

RELATING TO THE EXPORTS FROM THE SOCIALIST REPUBLIC OF ROMANIA OF CERTAIN TEXTILE PRODUCTS FOR IMPORTS INTO NORWAY

Introduction

1. This Agreement sets out the Arrangements that have been made between the Government of Norway and the Government of the Socialist Republic of Romania regarding the exports of certain textile products from the Socialist Republic of Romania for imports into Norway.

2. These arrangements have been made having regard to the Arrangement Regarding International Trade in Textiles (hereinafter referred to as "the MFA"), as extended by the Protocol of 31 July 1986, bearing in mind particularly the provisions of Article 1:2, Article 1:6 and Article 4 of the MFA as well as Romania's status as a developing country.

Coverage

3. These arrangements apply to the exports of the Socialist Republic of Romania to Norway of the textile
products listed in Annex A to this Agreement when these are made of cotton, wool, man-made fibres or blends thereof, in which any, or all of those fibres in combination represent either the chief value of the fibres or 50 per cent or more by weight (or 17 per cent or more by weight of wool) of the product.

**Classification**

4. For the purpose of classifying textile products in the appropriate category, the definitions set out in Annex A will apply.

5. In case of divergent opinions between the competent Norwegian and Romanian authorities on the classification of products covered by this Agreement, consultations as provided for in Article 15 of this Agreement shall be held with a view to reaching agreement on the appropriate classification of the products concerned and to resolving any difficulties arising therefrom. For this purpose, the authorities of the Socialist Republic of Romania shall be informed by the competent authorities in Norway as soon as a case of divergent opinions on the classification of products arises.

Pending agreement on the appropriate classification and in order to avoid disruption of trade, the products in question shall be imported on the basis of the classification indicated by the competent Norwegian authorities, in conformity with the provisions of this Agreement.

**Levels**

6. For products listed in Annex B to this Agreement, the Socialist Republic of Romania shall for each period during the term of this Agreement limit its exports to Norway up to the levels set out in Annex B.
Flexibility provisions

7. (a) If in any restraint period of this Agreement, levels specified in Annex B of this Agreement for any categories are not fully utilized, the Government of the Socialist Republic of Romania may after prior notification to the Government of Norway during the subsequent twelve months period approve the exports of additional amounts (carryover) equivalent to such shortfalls provided that such exports are in the same categories where the shortfalls occurred and do not exceed the percentages set out under column (d), Annex B.

(b) During each restraint period of this Agreement, the Government of the Socialist Republic of Romania may, after prior notification to the Government of Norway, approve the exports of amounts in excess of the levels specified in Annex B of this Agreement up to the percentages set out in Annex B under column (e) increased by the appropriate growth rate of these levels (carry forward) for the current restraint period. Where specific levels have been increased by carry forward the Government of the Socialist Republic of Romania shall inform the Government of Norway of the carry forward quantities and debit these to the corresponding levels which are agreed or may be agreed upon for the subsequent period.

(c) During each restraint period of this Agreement, the Government of the Socialist Republic of Romania may, after prior notification to the Government of Norway approve the exports of amounts in excess of the levels specified in Annex B to this Agreement up to the percentages set out in Annex B under column (f) increased by the appropriate growth rate (swing). Where specific levels have been increased by swing a corresponding reduction shall be made in one or more of other levels calculated on the basis of the conversion factors listed in Annex B, column (h).

(d) During each restraint period of this Agreement, the additional export quantities resulting from carryover, carry forward and swing taken together shall, for each specific level, not exceed the percentages set out in Annex B
Textile products without specific levels.

8. When imports of a product not subject to specific levels have reached a level corresponding to at least 1.5% of the preceding calendar year's total imports into Norway of that product and the imports cause or threaten to cause market disruption as defined in Annex A of the MFA, the Norwegian Government may request consultations in order to establish a restraint level for the product concerned.

Pending a mutually acceptable solution through these consultations, the Norwegian Government may fix a quantitative limit at least at the volume reached by imports of the product in question in the twelve-months period preceding the request for consultation, and the annual growth rate in such a case shall not be less than 2%.

Administration

9. Exports from the Socialist Republic of Romania to Norway of textile products listed in Annex B shall be subject to a double-checking system by the Romanian and Norwegian authorities, as specified in Annex C of the Agreement.

Circumvention

10. The Government of Norway and the Government of the Socialist Republic of Romania agree to cooperate fully in dealing with problems relating to circumvention of the arrangements set out in this Agreement.

When information available to the Norwegian authorities indicates that products of Romanian origin listed in Annex B to this Agreement have been imported into Norway by transshipment, rerouting or otherwise, in circumvention of the arrangements set out in this Agreement, Norway may ask for consultations as provided for in Article 15 of this Agreement, with a view to agree on an appropriate solution.
If the parties fail to reach a mutually satisfactory solution within a period of 51 days from the date when the request for consultations was received, the Norwegian authorities may, if solid evidence of circumvention has been provided and pending the outcome of the consultations, carry out an appropriate adjustment of the specific levels for the products concerned, for the current or the following calendar year.

**Seasonal fluctuations**

11. The Government of the Socialist Republic of Romania will endeavour to ensure by way of issuing export licences that exports of textile products covered by this Agreement and subject to specific levels are spaced out as evenly as possible each calendar year, however taking into consideration possible concentration of exports attributable to normal seasonal factors.

**Rules of origin**

12. The origin of the products covered by this Agreement shall be determined in accordance with the rules in force in Norway and the procedures for control of the origin of the products set out in Annex C. Any changes in these rules shall be notified to the Romanian authorities.

**Re-exports**

13. Exports from the Socialist Republic of Romania to Norway of textile products covered by this Agreement shall not be subject to specific levels established in Annex B, provided that the export licence certifies that the products concerned are for re-export outside Norway.

Where the competent Norwegian authorities have evidence that products exported from the Socialist Republic of Romania against a specific level established in Annex B have been subsequently re-exported outside Norway, the Norwegian
Government shall notify the Government of the Socialist Republic of Romania of the quantities involved. Upon receipt of such notification, the Government of the Socialist Republic of Romania may authorize for the current calendar year exports of identical quantities of products within the same category, which shall not be set off against the quantitative limits established in Annex B.

Exchange of statistics

14. For all products covered by Annex B of this Agreement

- the Government of the Socialist Republic of Romania undertakes to provide the Government of Norway with quarterly statistics of all export licences issued by the authorities for each category for the current agreement year.

For all products covered by this Agreement

- the Government of Norway will provide the Government of the Socialist Republic of Romania with quarterly statistics of total imports and licenses issued for imports from Romania of all categories covered by this Agreement.

Each report shall be transmitted before the end of the second month following the month covered by the report.

Consultations

15. The Government of Norway and the Government of the Socialist Republic of Romania agree to consult at the request of either Government, on any question arising in the application of this Agreement.

Any request for consultations shall be notified in writing to the other party together with a statement explaining the
reasons and circumstances that led to the request.

The parties shall enter into consultations within 21 days at the latest from when the request was received, with a view to arriving at a mutually satisfactory conclusion in conformity with the provisions of the MFA within a further 30 days at the latest.

Other textile products

16. Both parties reserve their rights under the MFA with respect to textile products not covered by this Agreement.

Reintroduction of restraints

17. It is agreed by the Government of Norway that if restraint levels were introduced under the provisions of Article 15 of this Agreement for any category or categories of products that were subject to quantitative limits in the Agreement of October 1984, but were subsequently removed, the annual restraint levels so fixed shall not be less than the highest restraint levels obtained for that category or categories of products in any agreement year in the past, duly increased by an annual growth rate.

General

18. The present Agreement shall provisionally enter into force from 1 January 1988, until 31 December 1991.

19. Either party may at any time propose modifications to this Agreement. Such proposals shall lead to consultations in accordance with the procedures outlined in Article 15.

Either party may at any time renounce this Agreement provided that at least 60 days' notice is given. In that event the Agreement shall come to an end on the expiry of the period of notice.
20. The Annexes to this Agreement shall be considered as an integral part thereof.

Done in two originals in Bucharest on October 12, in 1988, in the English language, both texts being equally authentic.

ANNEX C

ADMINISTRATIVE COOPERATION

1. Products originating in the Socialist Republic of Romania for export to Norway in accordance with the arrangements established by this Agreement shall be accompanied by a certificate of Romanian origin conforming to the specimen attached as Annex D, including full description of the goods.

The certificate of Romanian origin shall be issued by the Ministry of Light Industry of the Socialist Republic of Romania.

2. The competent authorities of the Socialist Republic of Romania shall issue export licences in respect of consignments from the Socialist Republic of Romania for exports to Norway of products covered by Annex B. The export licences shall conform to the specimen attached as Annex E.

3. For products covered by Annex B, the authorities of the Socialist Republic of Romania shall issue export licences up to the restraint levels agreed through this Agreement. The export licence must certify that the quantity of the product in question has been set off against the restraint level prescribed for the category of the product in question.

4. Each export licence shall cover only one of the categories of products listed in Annex B to this Agreement.

5. Exports shall be set off against the restraint levels established for the year in which shipment of the goods has been effected.

6. The presentation of an export licence, in application of paragraph 7 below, shall be effected not later than 31 January of the quota year following the quota year in which the goods covered by the licence have been shipped.
7. Importation into Norway of textile products subject to restraint levels shall be subject to the presentation of appropriate import documents.

The competent Norwegian authorities shall issue such import documents automatically within ten working days of the presentation by the importer of the original of the corresponding export licence.

8. The competent Norwegian authorities must be notified forthwith of the withdrawal or alteration of any export licence already issued.

The competent Norwegian authorities shall cancel the already issued import documents if the corresponding export licence has been withdrawn.

However, if the competent Norwegian authorities have not been notified about the withdrawal or cancellation of the export licence until after the products have been imported into Norway, the quantities involved shall be set off against the restraint level for the category and period in question, and the authorities of the Socialist Republic of Romania shall be informed as soon as possible after the receipt of the notification on the withdrawal of the export licence.

9. If the competent Norwegian authorities find that the total quantities covered by export certificates issued by the authorities of the Socialist Republic of Romania for a particular category in any period exceed the restraint level established for that category, the said authorities may suspend the further issue of import documents. In this event, the competent Norwegian authorities shall immediately inform the authorities of the Socialist Republic of Romania and the special consultation procedure set out in Article 15 of the Agreement shall be initiated forthwith.
10. For exports of products of Romanian origin listed in Annex B not covered by export licences issued by the authorities of the Socialist Republic of Romania in accordance with the provisions of this Annex, the issue of appropriate import documents may be refused by the competent Norwegian authorities.

11. The export licence and the certificate of Romanian origin may comprise additional copies duly indicated as such. They shall be made out in English. If they are completed by hand, entries must be in ink and in printscript.

Only the original, clearly marked "original" shall be accepted by the competent authorities in Norway as being valid for the purposes of export to Norway in accordance with the arrangements established in this Agreement.

12. Each export licence and certificate of Romanian origin shall bear a serial number, by which it can be identified. The export licence shall also contain the following information:

b. Country of origin.

c. Name and address of exporter (and if possible manufacturer).

d. Name and address of importer.

e. Full description of the goods, including if possible tariff classification numbers, both in the system of the exporting country and of Norway.

f. Relevant category number and description as set out in Annex A of the Agreement.

g. F.O.B. value.

h. Quantity in units set out in Annex A.

i. Expected place and date of shipment - means of transport.
13. In the event of theft, loss or destruction of an export licence of Romanian origin, the exporter may apply to the competent governmental authority which issued the document for a duplicate to be made out on the basis of the export documents in his possession. The duplicate or any such certificate or licence so issued shall bear the endorsement "duplicate".

The duplicate must bear the date of the original export licence or certificate of Romanian origin.

14. The Romanian Ministry of Foreign Trade and International Economic Cooperation shall send the Norwegian Ministry of Foreign Affairs the names and addresses of the governmental authorities or other bodies competent for the issue and verification of export licences and certificates of Romanian origin together with specimens of the stamps used by them. The Romanian Ministry of Foreign Trade and International Economic Cooperation shall also notify the Norwegian Ministry of Foreign Affairs of any change in this information.

MEMORANDUM OF UNDERSTANDING

Representatives of the Government of Norway and the Government of Socialist Republic of Romania have held negotiations on the conclusion of an agreement on trade in textiles. As a result of these negotiations the Parties concluded an Agreement today. Moreover, the following understanding was reached:

If the Government of the Socialist Republic of Romania considers that as a result of the Agreement, Romania is being placed in an inequitable position vis-à-vis a third country, Romania may request consultations with a view to agreeing on remedial action, including an appropriate modification of the Agreement.

If exports of textile products without restraint levels from Romania come to exceed the trigger level referred to in Article 8 of the Agreement as a result of a decrease in total Norwegian imports of the products concerned, the Norwegian Government will not invoke Article 8 towards imports from the Socialist Republic of Romania.

If Norwegian and Romanian producers enter into outward processing deals, the competent Norwegian authorities will give a benevolent consideration to the Romanian request to the effect that re-imports into Norway of products covered by the Agreement which have been temporarily exported by Norway and subsequently processed in Romania should not be subject to restraint levels established in Annex B.

They also agreed that imports into Norway of Romanian cottage industry garments and other articles obtained manually and traditional folklore handicraft products shall not be subject to specific levels established by the Agreement, provided that these products are accompanied at the point of entry into Norway by a certificate issued by the Ministry of Foreign Trade and International Economic Cooperation of Romania in accordance with the specimen annexed to this Memorandum of Understanding.
This Memorandum of Understanding will form an integral part of the above mentioned Agreement.
