Dear Ambassador Wurth,

With reference to the recommendations adopted by the Textiles Surveillance Body on 2 May 1977 with regard to the Swedish unilateral restrictions on imports of blouses from Pakistan I wish to make the following report, which has been agreed between the two parties.

Consultations between Sweden and Pakistan have taken place regarding the recommendations contained in paras 4 and 5 of the above mentioned TSB decision.

Concerning the recommendation in para 5, that the Swedish restrictions should, during an interim period, be replaced by voluntary export arrangements by Pakistan, the Swedish side explained that this was not practically feasible, at least not before 1 January 1978, since the Swedish authorities have given importers irrevocable licensing commitments valid until that date for the entire quantity to be imported during the period April 1 - December 31, 1977.

With regard to the recommendations in para 4 on a certification system for handloom cottage industry products and the establishment of the component levels of the exports of blouses from Pakistan, the consultations have so far not been conclusive. The parties agreed to remain in contact and will revert in this matter to the TSB as soon as it is found possible or necessary to do so.

Sincerely yours,

Carl De Geer
Permanent Representative
