LETTER TO CHAIRMAN, TSB, FROM UNDER-SECRETARY FOR EXTERNAL TRADE OF MEXICO

Mexico City, 4 April 1978

In July 1974, the Mexican Government presented to the Textiles Surveillance Body a full report in justification of the measures in force to regulate imports of textile products, and in particular the control mechanism consisting of a prior import licence.

On that occasion, after having examined the Mexican document, the Textiles Surveillance Body arrived at the conclusion that the system established by our country was justified in the terms of the provisions of the GATT and recommended that in the following year and in subsequent years, the Government of Mexico report on the evolution of its textiles industry and on the situation in respect of import controls.

In this connexion, the Mexican Government wishes to state that the current situation in the Mexican textile industry presents the same characteristics as in 1974. The situation can even be said to have deteriorated somewhat by reason of the protectionist measures adopted by other countries which have hampered sound growth of production and subsequently improved competitiveness of the Mexican textile industry.

In view of the foregoing, no fundamental changes have been made in the control measures applied on imports of textile products, and in the view of the Mexican Government their maintenance is still fully justified.

Nevertheless, and within the context of a revision currently being made of Mexico's protection policy, on 31 December 1977 the Government revoked the prior permit requirement in respect of twenty-seven textile products¹, in addition to those on which this requirement had already been revoked in 1975.

I would request you kindly to convey the foregoing information to the members of the Textiles Surveillance Body and the Textiles Committee, it being understood that the Mexican Government will pursue its efforts to promote sound development of international trade in textiles.

Accept, Sir, the assurances of my highest consideration, etc.

¹The list of these products is annexed to this letter.
