Chairman, Textiles Surveillance Body
G.A.T.T.

Dear Mr. Chairman:

Pursuant to the provisions of paragraph 4 of Article 4 of the Arrangement Regarding International Trade in Textiles, I am instructed by my government to inform the Textiles Surveillance Body of the extension and amendment of the cotton textiles agreement and the extension of the man-made fiber textiles agreement between the Government of the United States of America and the Government of the Federative Republic of Brazil. The original agreements were circulated as COM.TEX/SB/178 of 17 July 1976. Amendments to both agreements were notified and subsequently circulated as COM.TEX/SB/357 of 28 September 1978. A further amendment was notified to the TSB on May 15, 1979 and is presently awaiting review.

Both cotton agreement and the man-made fiber agreements have been extended by amendment of the term provisions of both agreements to read "The term of this agreement shall be from April 1, 1976 through March 31, 1982."

In order to provide for 7% annual growth throughout the period of the extended cotton agreement it was necessary to amend the language of paragraph 7 thereof.

The cotton agreement was further amended by the establishment of five new specific limit levels for categories which were under specific limit under the old agreement. Purpose of this amendment was to bring the levels of those categories in to closer correlation with the needs of the trade. The net effect of these changes is shown in square yards equivalent in the following table:
