Geneva, August 31, 1979

Ambassador P Wurth
Chairman
Textiles Surveillance Body, GATT
Centre William Rappard
154, rue de Lausanne
1211 GENEVE 21

Dear Mr Ambassador,

I am notifying to the Textiles Surveillance Body a new agreement concerning trade in textiles between the Republic of Korea and Sweden.

This agreement has been reached for the purpose of eliminating real risks of market disruption in Sweden, while ensuring an orderly development of textile exports from the Republic of Korea to Sweden and is being notified with reference to Article 4 of the Arrangement Regarding International Trade in Textiles, as well as the Protocol of Extension and the understandings set forth therein (L/4616), acceded to by Sweden through letter of 28 April 1978.

The more comprehensive approach in this, as well as in other Swedish textile agreements, has been made necessary by the deteriorating situation in whole segments of the Swedish textile industry and by the real risks of market disruption which, according to past experience, an agreement covering only certain sensitive products would present in a country like Sweden.

The present system of comprehensive agreements, i a with the Republic of Korea, is based on a categorization into fourteen groups of the most sensitive textile products within CCC (BTN) chapters 60-62. These groups are:

I Stockings, under stockings, socks, ankle-socks, sockettes and the like, knitted or crocheted, other than ladies' stockings of continuous synthetic textile fibres

II Shirts

III Nightwear
IV Knitted underwear, other than shirts, nightwear and tights (including underwear T-shirts)

V Knitted sweaters, pullovers, slipovers, jumpers and cardigans etc (including outerwear T-shirts)

VI Overcoats and jackets

VII Suits, lounge coats and blazers

VIII Trousers, other than shorts

IX Costumes, dresses and skirts

X Blouses

XI Clothing, other than listed above, covered by CCC headings 60.03 - 60.05 and 61.01 - 61.04 as well as Commodity List 18 in Sweden

(Note: Commodity List 18 refers to textile products under the import licence surveillance system in Sweden. It is annexed to this letter)

XII Travelling rugs and blankets

XIII Bed linen

XIV Towels and similar articles

In this agreement with the Republic of Korea separate restraint levels have been established for the above groups I - X, XIII and XIV, whereas groups XI and XII have been merged into a common rest group, which should make a fair amount of flexibility possible. It can also be noted that most of the specific groups have a wide product coverage, which should work in the same direction. The absence of swing between the restraint groups is a reflection of a mutual recognition of the minimum viable production principle. No textiles under CCC chapters 50-59 are subject to restraint in the present agreement.

The difficult situation of the Swedish textile industry has become further aggravated during the last years. Imports of garments have increased substantially, while consumption has been stagnant. This has led to a further decrease of domestic production. As in previous years, a number of factories have had to close down in 1978. It should be recalled that Sweden is the country which has the highest import penetration in the world when it comes to textiles and the highest per capita import of clothing from developing countries.
For Sweden, which is a small market, with an exceptionally high level of imports and a low domestic production, the maintenance of a minimum viable production of textiles is of vital importance.

Yours sincerely,

Erik Cornell
Permanent Representative
