Dear Ambassador Wurth,

With reference to paragraph 4 of Article 4 of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, and to the Protocol Extending the ITA, done at Geneva on December 14, 1977, I have the honour to notify the Textiles Surveillance Body that agreement has been reached between the Governments of Canada and Macau to amend their bilateral textile arrangement which was initialled on December 7, 1978.

The existing bilateral textile arrangement was amended with consideration being given to the particular circumstances in the Canadian market and to the status of Macau as a relatively new supplier of the additional products to that market, i.e. of unstructured and structured suits, sports jackets and blazers, and of textile work gloves, all of which fall within the scope of the ITA.

The restraint levels negotiated reflect recent trading patterns and, in accordance with MFA guidelines, there is provision for growth at the rate of 6 percent. Flexibility provisions are the same as those already established in the original arrangement.

H.E. Ambassador Paul Wurth
Chairman

The amendment to the arrangement became effective January 1, 1980 and, as an integral part of the existing arrangement as it is presently written, will continue until December 31, 1981.

Both parties believe that this amendment conforms with the provisions of the ITA and, as such, is in keeping with the liberalization of the Canadian import programme on clothing and textiles. The revised arrangement will continue to assist in avoiding the real risk of Canadian market disruption while at the same time ensuring orderly development of world trade.

Please accept the assurances of my highest consideration.

D.S. McPhail  
Ambassador and  
Permanent Representative
Discussions between delegations of the Governments of Canada and Macau concerning trade in selected textile products were held in Macau on January 28 and 29, 1980. As a result of these consultations, both delegations agreed to amend the Memorandum of Understanding, which was initialled by representatives of both Governments in Macau on December 7, 1978, by extending the coverage of the arrangement.

For the period January 1, 1980 to December 31, 1981, it is agreed that the Government of Macau will limit its exports of work gloves and of men's and boy's structured and unstructured suits, sportscoats and blazers, as defined in Items 8, 9 and 10 which are deemed to be included in Annex A of the arrangement. The restraint levels established for these three items for the above period are

- 8,500 units (1980) and 9,010 units (1981) for Item 8;
- 9,000 units (1980) and 9,540 units (1981) for Item 9;
- 1,800,000 pr. (1980) and 1,908,000 pr. (1981) for Item 10.

Both parties agree that this Record of Discussions, together with the attached pages which are to be added to the Memorandum of Understanding, will form an integral part of the arrangement between Canada and Macau, for the period 1 Jan 1980 to December 31, 1981.
