ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification under Article 4:4

Bilateral Agreement between the EEC and Uruguay

Note by the Chairman

Attached is a notification received from the Commission of the European Communities concerning a new bilateral agreement initialled with Uruguay, negotiated under Article 4 of the Arrangement and in de facto application with effect from 1 January 1983 to 31 December 1986.¹

¹The previous agreement and subsequent modifications are contained in COM.TEX/SB/456, 487, 599 and 662.

*English only/Anglais seulement
Dear Ambassador,

Pursuant to Article 4:4 of the Arrangement as extended by the 1981 Protocol, I am notifying a new Agreement negotiated with Uruguay, comprising the text of the Agreement with two annexes and four Protocols.

The Agreement came into de facto application on 1 January 1983 with a duration of four years and resembles closely the Agreement which it succeeds. Like its predecessors, the Agreement covers 114 product categories although some of these have been merged and categories have been regrouped. Unrestrained categories are subject to a consultation procedure under which the Community may, but need not, request consultations with a view to establishing a limit when certain trade levels have been exceeded. Re-exports are excluded, as are handloom and cottage industry products, provided that such products meet the certification procedures and other conditions set out in Protocol B. There are provisions for breaking down Community-wide limits into Member State shares, with the possibility for reallocation of portions of such shares between Member States, for the exchange of statistics, the management of problems which could arise in case of divergent opinions on classification and for the spacing out of exports. The administration of the Agreement is governed by Protocol A which is also closely modelled on its predecessor in the earlier Agreement.

Three new provisions have been established pursuant to particular Paragraphs in the 1981 Protocol of Extension. An Anti-Surge provision, based on Paragraph 10, is applicable to Group I products only. Under the terms of that provision the Community may, in certain clearly defined circumstances, request consultations with a view to suspending flexibility.
or modifying a given quantitative limit in cases where larger underuti-
lied quotas have become the subject of a significant increase in im-
ports. Any measures taken under this provision would provide for equitable
and quantifiable compensation.

An anti-circumvention clause is established in pursuance of paragraph 14.
This provision provides for the adjustment of quotas in cases where clear
evidence of circumvention of the Agreement has been provided in
consultation with Uruguay by quantities equivalent to the circumvented
amounts.

In the present Agreement, one Community-wide restraint, replacing 2 regio-
nal restraints (Cat. 50) and 3 regional restraint limits (Cat. 46) have
been agreed between the parties. The limits are based on the restraint
levels obtaining in the last year of the previous Agreement, as well as on
traditional trade flows where no restraints existed before, plus growth
rates.

The exceptionally difficult market conditions for textile and clothing
products in the Community have also been taken into account in establi-
shing the flexibility provisions in the Agreement. Thus, carry-over/
carry-forward and inter-category transfers are available at 5% each.

The Community has drawn attention on previous occasions to the sluggish
level of demand for textiles and clothing in the Community. Latest figures
indicate a further worsening of the situation. During 1980 demand for
textiles grew at 1.6%, and for clothing 1.4%; in 1981 textile demand rose
by only 0.5% and there was an actual decline of 0.5% in demand for
clothing.

Community production has inevitably suffered. Since 1979, as shown in
COM/TEX/W.134, textile production has fallen by 8%, and clothing product-
ion by no less than 12%. In 1981 alone the decrease was 5.5% in textiles
and 7.5% in clothing. By mid-1982 a further decline of 5% in both
textiles and clothing had taken place.
The situation in employment reflects these trends. In addition to the loss of a quarter of all jobs in both textiles and clothing between 1973 and 1979, COM/TEX/W.134 shows that there has been a further decline of 13% in both industries between 1979 and 1981. Up to mid-1982 a further loss in both industries of 4% had taken place.

Copies of the Agreement and related documents are attached.

Yours sincerely,

J. Keck
The Directorate-General for External Relations of the Commission of the European Communities presents its compliments to the Mission of the Eastern Republic of Uruguay to the European Communities and has the honour to refer to the Agreement on trade in textile products between Uruguay and the Community initialled on 2 July 1982.

In response to the Mission's recent oral request the Directorate-General has the honour to confirm that the Community can agree to replace the figure of 1% specified in Article 9, para 5 of the Agreement by a figure of 2.5% and to replace the words '15 days' in Title I, Article 1, para 3 of Protocol A by '30 days'.

The Directorate-General is further able to confirm that the Community can agree to the following changes in the wording of Article 9, para 1, as proposed by the Mission:
- insert in the first sentence after 'it may request' the words: "with a view to avoiding palpable damage to domestic industry."
- insert in the last sentence after 'quantifiable compensation' the words: "which constitutes a mutually acceptable solution."

The Directorate-General also confirms the Community's agreement to the incorporation of the above changes in the final version of the Agreement to be signed.

The Directorate-General for External Relations of the Commission of the European Communities avails itself of this opportunity to renew to the Mission of the Eastern Republic of Uruguay to the European Communities the assurance of its highest consideration.

THE COUNCIL OF THE EUROPEAN COMMUNITIES:

THE GOVERNMENT OF the Eastern Republic of Uruguay.

THEY HAVE AGreed AS FOLLOWs:
SECTION I : TRADE ARRANGEMENTS

ARTICLE 1

1. The parties recognize and confirm that, subject to the provisions of this Agreement and without prejudice to their rights and obligations under the General Agreement on Tariffs and Trade, the conduct of their mutual trade in textile products shall be governed by the provisions of the Genova Arrangement.

2. In respect of the products covered by this Agreement, the Community undertakes not to introduce quantitative restrictions under Article XIX of the General Agreement on Tariffs and Trade or Article 3 of the Genova Arrangement.

3. Measures having equivalent effect to quantitative restrictions on the importation into the Community of the products covered by this Agreement shall be prohibited.
ARTICLE 2

1. This Agreement shall apply to trade in textile products of cotton, wool and man-made fibres originating in Uruguay which are listed in Annex I.

2. The classification of the products covered by this Agreement is based on the nomenclature of the Common Customs Tariff and on the Nomenclature of Goods for the External Trade Statistics of the Community and the Statistics of Trade between Member States (NIMEXE).

3. The origin of the products covered by this Agreement shall be determined in accordance with the rules in force in the Community.

The procedures for control of the origin of the products referred to above are laid down in Protocol A.
ARTICLE 3

Uruguay agrees for each Agreement year to restrain its exports to the Community of the products described in Annex II to the limits set out therein.

Exports of textile products set out in Annex II shall be subject to a double-checking system specified in Protocol A.
ARTICLE 4

Uruguay and the Community recognize the special and differential character of re-imports of textile products into the Community after processing in Uruguay.

Such re-imports may be agreed outside the quantitative limits established under this Agreement provided that they are effected in accordance with the regulations on economic outward processing in force in the Community.
ARTICLE 5

Exports of cottage industry fabrics woven on hand- or foot-operated looms, garments or other articles obtained manually from such fabrics and traditional folklore handicraft products shall not be subject to quantitative limits, provided that these products meet the conditions laid down in Protocol B.
ARTICLE 6

1. Imports into the Community of textile products covered by this Agreement shall not be subject to the quantitative limits established in Annex II, provided that they are declared to be for re-export outside the Community in the same state or after processing, under the administrative system of control set up for this purpose within the Community.

However, the release for home use of products imported under the conditions referred to above shall be subject to the production of an export licence issued by the Uruguay authorities, and to proof of origin in accordance with the provisions of Protocol A.

2. Where the Community authorities have evidence that imports of textile products have been set off against a quantitative limit established under this Agreement, but that the products have subsequently been re-exported outside the Community, the authorities concerned shall inform the Uruguay authorities within four weeks of the quantities involved and authorize imports of identical quantities of the same products, which shall not be set off against the quantitative limit established under this Agreement for the current or the following year.
ARTICLE 7

1. In any Agreement year advance use of a portion of the quantitative limit established for the following Agreement year is authorized for each category of products up to 5% of the quantitative limit for the current Agreement year.

Amounts delivered in advance shall be deducted from the corresponding quantitative limits established for the following Agreement year.

2. Carryover to the corresponding quantitative limit for the following Agreement year of amounts not used during any Agreement year is authorized for each category of products up to 5% of the quantitative limit for the current Agreement year.

3. Transfers in respect of categories in Group I shall not be made from any category except as follows:

- transfers between Categories 2 and 3 and from Category 1 to Categories 2 and 3 may be made up to 5% of the quantitative limits for the category to which the transfer is made.

- transfers between Categories 4, 5, 6, 7 and 8 may be made up to 5% of the quantitative limit for the category to which the transfer is made.

Transfers into any category in Groups II and III may be made from any category or categories in Groups I, II and III up to 5% of the quantitative limit for the category to which the transfer is made.

4. The table of equivalence applicable to the transfers referred to above is given in Annex I to this Agreement.

5. The increase in any category of products resulting from the cumulative application of the provisions in paragraphs 1, 2 and 3 above during an Agreement year shall not exceed 15%.

6. Prior notification shall be given by the authorities of Uruguay in the event of recourse to the provisions of paragraphs 1, 2 and 3 above.
ARTICLE 8

1. Exports of textile products not listed in Annex II to this Agreement may be made subject to quantitative limits by Uruguay, on the conditions laid down in the following paragraphs.

2. Where the Community finds, under the system of administrative control set up, that the level of imports of products in a given category not listed in Annex II originating in Uruguay, exceeds, in relation to the preceding year's total imports into the Community from all sources of products in that category, the following rates:

- for categories of products in Group I 0.5%
- for categories of products in Group II 2.5%
- for categories of products in Group III 5.0%

It may request the opening of consultations in accordance with the procedure described in Article 17 of this Agreement, with a view to reaching agreement on an appropriate restraint level for the products in such category.

The Community shall authorise the importation of products of the said category shipped from Uruguay before the date on which the request for consultations was submitted.

3. Pending a mutually satisfactory solution, Uruguay undertakes to limit exports of the products in the category concerned to the Community or to the region or regions of the Community market specified by the Community for a provisional period of 3 months from the date on which the request for consultations is made. Such provisional limit shall be established at 25% of the level of imports reached during the calendar year preceding that in which imports exceeded the level resulting from the application of the formula set out in paragraph 2, and gave rise to the request for consultation or 25% of the level resulting from the application of the formula set out in paragraph 2, whichever is the higher.

4. Should the Parties be unable in the course of consultations to reach a satisfactory solution within the period specified in Article 17 of the Agreement, the Community shall have the right to introduce a definitive quantitative limit at an annual level not lower than the level resulting from the application of the formula set out in paragraph 2, or 106% of the level of imports reached during the calendar year preceding that in which imports exceeded the level resulting from the application of the formula set out in paragraph 2 and gave rise to the request for consultations, whichever is the higher.
The annual level so fixed shall be revised upwards after consultations in accordance with the procedure referred to in Article 17, with a view to fulfilling the conditions set out in paragraph 2, should the trend of total imports into the Community of the product in question make this necessary.

5. The limits introduced under paragraph 2 or paragraph 4 may in no case be lower than the level of imports of products in that category originating in Uruguay in 1980.

6. Quantitative limits may also be established by the Community on a regional basis in accordance with the provisions of Protocol C.

7. The annual growth rate for the quantitative limits introduced under this Article shall be determined in accordance with the provisions of Protocol D.
ARTICLE 9

2. Where the Community ascertains that the level of imports in a given category of Group I subject to quantitative limits set out in Annex II exceeds in any Agreement year the level of imports in the preceding year by 10% of the level of the quantitative limit set out in Annex II for the current Agreement year, it may request the opening of consultations in accordance with the provisions described in Article 17 of this Agreement with a view to reaching agreement on:

- the suspension, wholly or in part, of the provisions of Article 7,
- a modification of the quantitative limit set out in Annex II by the establishment of an ad hoc limit below the existing quantitative limit;
- as well as the corresponding equitable and quantifiable compensation.

2. The Community shall authorize the importation of products of the said category shipped from Uruguay before the date on which the request for consultations was submitted.

Pending a mutually satisfactory solution, Uruguay undertakes for a period of 1 month from the date of notification of the request for consultations, to restrain exports of the products in the category concerned to the Community or to the region or regions of the Community market specified by the Community to one twelfth of the level of exports reached during the preceding calendar year.

3. A quantitative limit modified as a result of the application of paragraph 1 in any year preceding the final Agreement year shall be subject to a growth rate so as to ensure that the level of the quantitative limit set out in Annex II for the final Agreement year is regained in that year.

4. Should the Parties be unable in the course of consultations to reach a satisfactory solution within the period specified in Article 17 of the Agreement, Uruguay undertakes, if so requested by the Community:

- to suspend wholly or in part, the provisions of Article 7 in respect of the Community or any of its regions for the category concerned, or
to modify the quantitative limit set out in Annex II for the category concerned so as to restrain exports to the Community or any of its regions to 125% of imports attained during the preceding calendar year, or to the level of exports up to the date of the request for consultations plus the level of exports provided for during the consultation period under paragraph 2, whichever is the higher.

In the event that the provisions of this paragraph are applied the Community undertakes to maintain an offer of equitable and quantifiable compensation.

The application of the measures provided for in this paragraph is limited to the year in which the measures are taken.

3. The provisions of paragraph 1 shall not apply to a given category unless the quantitative limits established in Annex II for the Community for that category represent at least 1% of total Community imports during 1980.

4. The provisions of paragraph 1 shall not apply to a given category unless the level of imports originating in Uruguay during the current Agreement year represent at least 50% of the quantitative limit set out in Annex II for that category in the Community as a whole or in any region or regions of the Community concerned.

5. Any limit modified in accordance with the provisions of paragraphs 1 or 4 may in no case be lower than the level of imports of products in that category originating in Uruguay in 1980.

6. The provisions of the article also apply where the level referred to in paragraph 1 is exceeded in any of the Community's regions. In such a case the compensation referred to in paragraphs 1 and 4 will concern the region or regions of the Community indicated in the Community's request for consultations.

7. With a view to limiting recourse to paragraph 1 of this Article, undertakes to inform the Community of any sharp and substantial increases in the issue of export licences for any category which is likely to lead to the fulfilment of the conditions required for the application of the present article.
ARTICLE 10

1. Uruguay undertakes to supply the Community with precise statistical information on all export licences issued by the Uruguay authorities for all categories of textile products subject to the quantitative limits established under this Agreement as well as on all certificates issued by Uruguay authorities for all products referred to in Article 5 and subject to the provisions of Protocol B.

The Community shall likewise transmit to the Uruguay authorities precise statistical information on import authorizations or documents issued by the Community authorities in respect of export licences and certificates issued by Uruguay.

2. The information referred to in paragraph 1 shall, for all categories of products, be transmitted before the end of the second month following the quarter to which the statistics relate.

3. Uruguay also undertakes to supply the Community with available statistical information on all textile exports by country of destination.

The Community shall transmit to Uruguay authorities import statistics for all products covered by the system of administrative control referred to in Article 8, Paragraph 2 and for products covered by Article 6 Paragraph 1.

4. The information referred to in paragraph 3 shall, for all categories of products, be transmitted before the end of the third month following the quarter to which the statistics relate.

5. Should it be found on analysis of the information exchanged that there are significant discrepancies between the returns for exports and those for imports, consultations may be initiated in accordance with the procedure specified in Article 17 of this Agreement.

6. For the purpose of applying the provisions of Article 8, and Article 9, the Community undertakes to provide Uruguay authorities before 15 April of each year with the preceding year’s statistics on imports of all textile products covered by this Agreement, broken down by supplying country and Community Member State.
ARTICLE 11

1. In case of divergent opinions between Uruguay and the competent Community authorities at the point of entry into the Community on the classification of products covered by the present Agreement, classification shall provisionally be based on indications provided by the Community, pending consultations in accordance with Article 17 with a view to reaching agreement on definitive classification of the product concerned.

2. The authorities of Uruguay shall be informed of any amendment to the Common Customs Tariff or Nomenclature or any decision, made in accordance with the procedures in force in the Community, relating to the classification of products covered by this Agreement.

Any amendment to the Common Customs Tariff or Nomenclature or any decision which results in a modification of the classification of products covered by this Agreement shall not have the effect of reducing any quantitative limit established in Annex II.

The procedures for the application of this Paragraph are set out in Protocol A.
Uruguay and the Community agree to cooperate fully in preventing the circumvention of the present Agreement by transshipment, rerouting or whatever other means.

Where information available to the Community as a result of the investigations carried out in accordance with the procedures set out in Protocol A constitutes evidence that products of Uruguay origin subject to quantitative limits established under this Agreement have been transshipped, rerouted or otherwise imported into the Community in circumvention of this Agreement, the Community may request the opening of consultations in accordance with the procedures described in Article of this Agreement, with a view to reaching agreement on an equivalent adjustment of the corresponding quantitative limits established under this Agreement.

Pending the result of the consultations referred to in paragraph 2, Uruguay shall as a precautionary measure, if so requested by the Community, make the necessary arrangements to ensure that adjustments of quantitative limits liable to be agreed following the consultations referred to in paragraph 2, may be carried out for the quota year in which the request for open consultations in accordance with paragraph 2 was made, or for the following year if the quota for the current year is exhausted, where clear evidence of circumvention is provided.

Should the parties be unable in the course of consultations to reach a satisfactory solution within the period specified in Article 17 of the Agreement, the Community shall have the right, where clear evidence of circumvention has been provided, to deduct from the quantitative limits established under this Agreement amounts equivalent to the products of Uruguay origin.
ARTICLE 13

1. Uruguay shall endeavour to ensure that exports of textile products subject to quantitative limits are spaced out as evenly as possible over an agreement year, due account being taken, in particular, of seasonal factors.

2. Should there be an excessive concentration of imports on any product within a category subject to quantitative limits under this Agreement, the Community may request consultations in accordance with the procedure specified in Article 17 of this Agreement with a view to remedying this situation.
ARTICLE 14

Should recourse be had to the denunciation provisions of Article 19 paragraph 4, the quantitative limits established in Annex II shall be adapted on a pro rata basis.
ARTICLE 15

1. For the purpose of the administration of this Agreement, the limits referred to in Article 3 are broken down by the Community into shares for each of its Member States.

2. Portions of the quantitative limits established in Annex II not used in one Member State of the Community may be reallocated to another Member State in accordance with the procedures in force in the Community.

   The Community undertakes to examine with care and reply within four weeks to any request made for reallocation by Uruguay. In the event of agreement on such reallocation, the flexibility provisions set out in Article 7 shall continue to be applicable to the levels of the original allocation.

   If, in the course of the application of the Agreement Uruguay finds that the break-down of a limit established in Annex II causes particular difficulties, it may request the opening of consultations in accordance with the provisions of Article 17 with a view to reaching a mutually satisfactory solution.

3. Should it appear in any given region of the Community that additional supplies are required, the Community may, where measures taken pursuant to paragraph 1 above are inadequate to cover those requirements, authorise the importation of amounts greater than those stipulated in Annex II.
ARTICLE 16

1. Uruguay and the Community undertake to refrain from discrimination in the allocation of export licences and import authorizations of documents referred to in Protocols A and B.

2. In implementing this Agreement, the Contracting Parties shall take care to maintain the traditional commercial practices and trade flows between the Community and Uruguay.

3. Should either Party find that the application of this Agreement is disturbing existing commercial relations between importers in the Community and suppliers in Uruguay, consultations shall be started promptly in accordance with the procedure specified in Article 17 of this Agreement, with a view to remedying this situation.
ARTICLE 17

1. The special consultation procedures referred to in this Agreement other than those referred to in paragraph 2 of this Article, shall be governed by the following rules:

- any request for consultations shall be notified in writing to the other Party;
- the request for consultations shall be followed within a reasonable period (and in any case not later than fifteen days following the notification) by a statement setting out the reasons and circumstances which, in the opinion of the requesting Party, justify the submission of such a request;
- the Parties shall enter into consultations within one month at the latest of notification of the request, with a view to reaching agreement or a mutually acceptable conclusion within one further month at the latest.

2. The special consultation procedures referred to in Article 9 of the Agreement shall be governed by the following rules:

- any request for consultations shall be notified in writing to the other Party, together with a statement setting out the reasons and circumstances which, in the opinion of the requesting Party, justify the submission of such a request;
- the Parties shall enter into consultations within 15 days at the latest of notification of the request, with a view to reaching agreement or a mutually acceptable conclusion within a further 15 days at the latest.

3. If necessary, at the request of either of the Parties and in conformity with the provisions of the Geneva Agreement, consultations shall be held on any problems arising from the application of this Agreement. Any consultations held under this Article shall be approached by both Parties in a spirit of cooperation and with a desire to reconcile the difference between them.
ARTICLE 18

This Agreement shall apply to the territories within which the Treaty establishing the European Economic Community is applied and under the conditions laid down in that Treaty on the one hand, and to the territory of Uruguay on the other hand.
ARTICLE 19

1. This Agreement shall enter into force on the first day of the month following the date on which the Contracting Parties notify each other of the completion of the procedures necessary for this purpose. It shall be applicable until 31 December 1986.

2. This Agreement shall apply with effect from 1 January 1983.

3. Either Party may at any time propose modifications to the Agreement.

4. Either Party may at any time denounce this Agreement provided that at least sixty days' notice is given. In that event the Agreement shall come to an end on the expiry of the period of notice.

5. The Annexes and Protocols to this Agreement shall form an integral part thereof.
ARTICLE 20

This Agreement shall be drawn up in two copies in the Danish, Dutch, English, French, German, Greek, Italian and Spanish languages, each of these texts being equally authentic.

Article 1

1. The competent authorities of the Community undertake to inform of any changes in the Common Customs Tariff or HTMEXE before the date of their entry into effect in the Community.

2. The competent authorities of the Community undertake to inform of any decisions relating to the classification of products subject to the present Agreement within one month of their adoption at the latest. Such communication shall include:

   a) a description of the products concerned
   b) the relevant category, tariff position or sub-position and the HTMEXE code
   c) the reasons which have led to the decision.

3. Where a decision on classification results in a change of classification practice or a change of category of any product subject to the present Agreement, the competent authorities of the Community shall provide 15 days' notice, from the date of the Community's communication, before the decision enters into effect. Products shipped before the date of entry into effect of the decision shall remain subject to the earlier classification practice, provided that the goods in question are presented for importation into the Community within 60 days of that date.
Article 2

1. Products originating in Uruguay for export to the Community in accordance with the arrangements established by this Agreement shall be accompanied by a certificate of Uruguay origin conforming to the model annexed to this Protocol.

2. The certificate of origin shall be issued by the competent governmental authorities of Uruguay if the products in question can be considered products originating in that country within the meaning of the relevant rules in force in the Community.

3. However, the products in Group III may be imported into the Community in accordance with the arrangements established by this Agreement on production of a declaration by the exporter on the invoice or other commercial document relating to the products to the effect that the products in question originate in Uruguay within the meaning of the relevant rules in force in the Community.

4. The certificate of origin referred to in paragraph 1 shall not be required for import of goods covered by a certificate of origin Form A or form APR completed in accordance with the relevant Community rules in order to qualify for generalized tariff preferences.

Article 3

The certificate of origin shall be issued only on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorized representative. The competent governmental authorities of Uruguay shall ensure that the certificate of origin is properly completed and for this purpose they shall call for any necessary documentary evidence or carry out any check which they consider appropriate.
Article 4

Where different criteria for determining origin are laid down for products falling within the same category, certificates or declarations of origin shall contain a sufficiently detailed description of the goods to enable the criterion to be determined on the basis of which the certificate was issued or the declaration drawn up.

Article 5

The discovery of slight discrepancies between the statements made in the certificate of origin and those made in the documents produced to the customs office for the purpose of carrying out the formalities for importing the product shall not ipso facto cast doubt upon the statements in the certificate.

2. The provisions of Title IV and V of Protocol A shall apply "mutatis mutandis" to the products referred to in paragraph 1.
