Notifications under Article 4

United States/Thailand

6. The Textiles Surveillance Body received a notification from the United States of a bilateral agreement concluded with Thailand for the period 1 January 1991 to 31 December 1993. The TSB recalled that the previous agreement between the parties had expired on 31 December 1988, and that in the absence of agreement a number of restraints were put in place under Article 3 in 1989 and 1990.

7. In reviewing this agreement the TSB noted that different data had been taken into consideration in negotiating the base levels, including:
   (a) the restraint levels in the previous agreement together with the applicable growth rates;
   (b) the levels of restraints taken or agreed under Article 3; and
   (c) the 1990 imports.

8. In this agreement:

   a) product coverage included products of cotton, wool, man-made fibre, silk blends and non-cotton vegetable fibres;

   b) a limit on the apparel Group and specific limits on several clothing and non-clothing categories were agreed;

   c) except in five cases, the Group and specific limits were set at levels higher or considerably higher than the levels referred to in paragraph 7 above;

   d) growth rates were set at 6 per cent on all restraints except three non-wool categories and three wool categories, where they were less than 6 per cent;
e) no swing was possible into or out of the Group limit; for the specific limits, swing was available at 3.5, 5 or 7 per cent;

f) additional swing was possible for some merged categories;

g) carryover and carry forward were possible at 11/6 per cent.

9. After its review, the TSB agreed to transmit the notification to the Textiles Committee. (COM.TEX/SB/1649)

Amendments of agreements concluded by the EEC and respectively, Argentina, China, Hong Kong, Hungary, Korea, Macau, Peru, the Philippines, Romania, Sri Lanka and Thailand

10. The TSB received a number of notifications from the EEC of amendments of agreements concluded with several of its trading partners. Due to the unification of Germany, the EEC increased the 1991 limits of the restraints at the Community level and at the regional level for Germany; in the case of Community restraints, the increases were added to the German shares in those restraints. The uplifts were calculated on the basis of (a) a standard formula or (b) direct imports for consumption in the former German Democratic Republic. The agreements concerned are those with:

**Argentina** - Three Community limits;

**China** - Twenty-two limits and three sub-limits at the Community level and four regional limits for Germany;

**Hong Kong** - Twenty-eight limits and two sub-limits at the Community level;

**Hungary** - Twenty-five limits and two sub-limits at the Community level;
Korea - Forty-one limits and two sub-limits at the Community level;

Macau - Twenty limits at the Community level;

Peru - Three limits at the Community level;

Philippines - Twelve limits at the Community level;

Romania - Twenty-six limits and one sub-limit at the Community level;

Sri Lanka - Four limits at the Community level; and

Thailand - Fourteen limits and two sub-limits at the Community level.

11. After its review, the TSB agreed to transmit the notifications to the Textiles Committee. (COM.TEX/SB/1650, 1651, 1652, 1653, 1654, 1655, 1656, 1657, 1658, 1659 and 1660)
