objection by the United States to this request. The TSB agreed to defer its examination of the case.

Matter Referred under Article 11:5

Hong Kong/United States

6. The TSB received a notification under Article 11:5 from Hong Kong referring to the question of the categorization of certain garments exported from Hong Kong to the United States under their bilateral agreement. Hong Kong stated that as a result of the new US Customs guideline concerning these garments, effective 1 January 1992, exports previously subject to the Export Authorization system were entering the United States under categories subject to specific limits.

7. The TSB heard presentations by delegations from Hong Kong and the United States on the issuance of a new guideline on the definition of "tights" by the competent US Government body, and was of the opinion that this was an action which resulted in a change in the sense of paragraph 18 of the 1986 Protocol of Extension.

8. The Body noted that the United States Government had taken steps to avoid disruption to trade during 1991, inter alia, by issuing the new guideline in September 1991 and making it effective only on 1 January 1992. As to avoidance of disruption to trade in the period starting on 1 January 1992, the United States had offered Hong Kong amounts additional to the quotas for categories 348 and 648; such offer would be limited to calendar year 1992, the parties holding a review of the matter before the end of the year. Hong Kong had not agreed to this offer, as the results of the review being aleatory, trade would be subjected to uncertainty.

9. In making the following recommendation, the TSB took into account that, although it was important to avoid the disruption to trade in the short-term, it was of equal importance to have certainty regarding the conditions under which trade would be conducted during the remainder of the
life of the agreement. The TSB recommended, therefore, that the parties renew their consultations promptly, in order to reach as soon as possible a definitive and mutually satisfactory settlement in this regard.

10. The TSB requested the parties to report back to it on the results of their consultations no later than 18 May.
