The Secretariat of ICITO/GATT is seeking to fill the position of Network Administrator. Applications from men and women are equally welcome. Serving staff members interested in this position are also invited to apply.

POST: Network Administrator

CATEGORY AND LEVEL: Professional - P.2 or P.3 according to qualifications and experience.

BASE SALARY:

POST ADJUSTMENT: 1/

Allowances according to Staff Rules. Net salary and other emoluments are exempt from income tax and paid in Swiss francs.

TYPE OF APPOINTMENT: Fixed-term until 31 December 1993, with possibility of extension.

ORGANIZATIONAL LOCATION: Statistics and Information Systems Division.

GENERAL FUNCTIONS: The incumbent will perform a range of assignments relating to the installation, operation and maintenance of networks.

Under the supervision of the Network and System Software Manager, the duties will include:
- Installation, operation and maintenance of Local and Wide Area Networks;
- Installation and configuration of network applications;
- Development of enhancements and translation of user needs into new applications;

1/ This allowance is adjustable according to the movements in the cost of living and to changes in the official United Nations rate of exchange between the US dollar and the Swiss franc. The figures mentioned above, which should be added to the base salary figures, correspond to the exchange rate for January 1993.
- Support and training of users at all levels;
- Participation in studies on appropriate hardware/software platforms;
- Tuning of the network (performance, system load, monitoring continuing effectiveness of systems);
- Trouble-shooting and problem-solving;
- Participation in feasibility studies of different multi-user systems such as database client/server, including cost-benefit analysis;
- Preparation of appropriate documentation.

**DESIRABLE QUALIFICATIONS:**

University degree in computer science. He/she must have a thorough knowledge of microcomputer equipment and software, programming skills, together with good experience in the installation and follow-up of large Local Area Networks, including multiple sites and access to IBM mainframes.

Experience with installation and usage of Novell Netware 3.x networks along with Microsoft Windows V3.1 and 3270 terminal emulation is highly desirable as well as proficiency in C or an object-oriented programming language.

Personal qualities should include the ability to integrate well within a networking team.

Minimum of seven years' experience in the above-mentioned areas.

**LANGUAGES:**

Fluency in English or French. A working knowledge of the other language would be desirable.

**APPLICATIONS:**

A formal application should be submitted to:

Chief of Personnel
ICITO/GATT
Centre William Rappard
Rue de Lausanne 154
CH-1211 Geneva 21
Switzerland

**CLOSING DATE OF THIS VACANCY NOTICE:** 5 March 1993
