ARTICLE VI

Proposals by the United Kingdom Delegation

1. Paragraph 1(a)

This should be amended if necessary to provide against dumping via third countries.

2. Paragraph 4

An interpretative note should be added as follows:

"'Duties or taxes borne by the like product' mean duties or taxes levied on or in respect of the product itself at any stage in its production or distribution; the phrase does not include duties or taxes levied, e.g., on the salaries or wages of those making or selling the product or on the profits arising out of the manufacture or distribution of the product."
