(2) The Central Government may provide to the designated authority the services of such other persons and such other facilities as it deems fit.

4. (1) It shall be the duty of the designated authority in accordance with these rules -

(a) to investigate as to the existence, degree and effect of any alleged dumping of any article;
(b) to identify the articles liable for any duty or additional duty; and

(c) to submit its findings to the Central Government as to the normal value in relation to such articles.

(2) If the designated authority arrives at a finding after conducting investigation in accordance with these rules, that for purposes of sub-section (1) of section 9A of the Act that any article exported from an exporting country or territory to India is at less than its normal value, it may recommend to the Central Government provisionally or otherwise the imposition of a duty, or as the case may be, an additional duty not exceeding the margin of dumping in relation to such article:

Provided that, in the case of countries or territories which have been notified in the Official Gazette under section 9B of the Act, no such duty or additional duty, as the case may be, shall be imposed unless the designated authority has given a further finding in accordance with these rules that import into India of such article causes or threatens to cause material injury to any industry established in India or materially retards the establishment of any industry in India.
5. For purposes of indentifying the articles which will be liable for duty or additional duty, the designated authority shall obtain all relevant information and data and shall be guided in such investigation by the following principles namely:

(a) an article shall be considered as being dumped into India if the export price of the article in the ordinary course of trade is less than the normal value in relation to the said article or like article.

Explanation:

(i) "like article" shall mean an article identical in all respects to the article under investigation and in absence of a like article, another article which, though not alike in all respects, has characteristics closely resembling those of the article under investigation;

(ii) 'export price' shall mean the price of the article exported from the exporting country to India.

6. In a case where an article is imported into India not from the country of origin but from an intermediate country, the price at which the article is sold from the intermediate country shall be compared with the comparable price in the intermediate country:
Provided that a comparison may also be made with the price in the country of origin if:

(a) the article is only trans-shipped through the intermediate country,

(b) the article is not produced in the intermediate country or,

(c) there is no comparable price in the intermediate country.

7. (1) The designated authority shall—

normally initiate an investigation only upon receipt of a written request by or on behalf of the affected domestic industry.

(2) The designated authority shall, before deciding to initiate an investigation, satisfy itself that it has sufficient prima facie evidence of—

(a) dumping,

(b) injury, where applicable, to the extent referred to in Article VI of the General Agreement on Tariffs and Trade as interpreted by the GATT Agreement on Anti-dumping Practices, and

(c) where applicable, a causal link between such dumped imports and the alleged injury.

(3) Notwithstanding anything contained in sub-rule(1), the designated authority may initiate an investigation supra moto, if it is satisfied from information received from the

Collector of Customs appointed under the Customs Act, 1962 (52 of 1962) or any other source that sufficient prima facie evidence exists as to the existence of the circumstances referred to in sub-rule(2).
8. The designated authority shall, after deciding to initiate an investigation, communicate to the governments of the exporting countries concerned, names of the articles which are proposed to be subjected to such investigation.

9. The designated authority shall allow the duly authorised representative of an interested party or the governments of the exporting countries concerned -

(a) upon their request, a reasonable opportunity to inspect any relevant information that is in its possession which is not confidential; and

(b) an opportunity to represent their views in writing, and on sufficient cause shown, orally.

10. (1) Any information provided to the designated authority on a confidential basis by any party in the course of an investigation, shall, upon the designated authority being satisfied as to its confidentiality, be treated as such by it and no such information shall be disclosed to any other party without specific authorisation of the party providing such information.

(2) The designated authority may require the parties providing information on confidential basis to furnish non-confidential summaries thereof and if, in the opinion of a party providing such information, such information is not susceptible of summary, such party may submit to the designated authority a statement of reasons why summarisation is not possible.
(3) Notwithstanding anything contained in sub-rule (2), if the designated authority is satisfied that the request for confidentiality is not warranted, or if the party requesting confidentiality is not willing to submit the reasons therefor, it shall be open to the designated authority to disregard such information.

Investigation in the territory of other signatories.

11. (1) The designated authority may carry out investigations in the territories of other signatories, if the circumstances of a case so warrant, provided that the designated authority communicates to the governments of such signatories in advance and such signatories do not object to the investigations.

(2) The designated authority may also carry out investigations at the premises of any commercial organisation and may examine its records if such organisation agrees and if the signatory in whose territory the said commercial organisation is situated, is notified and has not raised any objection for the conduct of such investigation.

12. The designated authority shall proceed expeditiously with the conduct of the investigation and shall, in appropriate cases, record a preliminary finding.

13. The Central Government may impose at any time, a provisional duty or an additional duty, as the case may be, on an article if, the designated authority makes, on the basis of best information available to it, a preliminary finding that there is dumping in respect of articles
which are the subject matter of the investigation.

Provided that in the case of an investigation to which section 9B of the Act applies, no provisional duty or additional duty as the case may be, shall be imposed unless the designated authority arrives at a further finding on the basis of best information available to it, that there is sufficient evidence of the import of such article causing or threatening to cause materially injury to any industry established in India or materially retarding the establishment of any industry in India within the meaning of Article VI of the General Agreement on Tariffs and Trade as interpreted by the GATT Agreement on Anti-dumping Practices and that the provisional duty or additional duty, as the case may be, is necessary to prevent injury being caused during the period of investigation:

Provided further that no such provisional duty or additional duty, as the case may be, shall exceed the provisionally estimated margin of dumping which shall be the difference between the export price and the normal value.

Findings on the basis of best information.

14. In a case in which an interested party or a signatory refuses access to, or otherwise does not provide necessary information to the designated authority within a reasonable period, or impedes its investigation, the designated authority may record its findings on the basis of the information available to it and make such recommendations to the Central Government as it deems fit under the circumstances.
15. (1) The designated authority may, at its discretion, suspend or terminate an investigation at any time -

(a) if it receives a request in writing for doing so on behalf of the domestic industry affected at whose instance the investigation was initiated, or,

(b) when, in the course of an investigation, the designated authority is satisfied that there is not sufficient evidence of dumping or, where applicable, injury to justify continuation of the investigation.

(2) Notwithstanding anything contained in sub-rule (1) the designated authority may suspend or terminate an investigation if the exporters of the article in question -

(a) give to the designated authority an undertaking in writing to revise prices so that no exports are made to India of the said article at dumped prices, or,

(b) in the case of countries to which section 9B of the Act applies, undertake to revise the prices so that injurious effect of dumping is eliminated;

Provided that increase in prices as a result of such undertakings is not higher than what is necessary to eliminate the margin of dumping.
(3) No undertaking as regards price increase under clause (b) of the sub-rule (2) shall be accepted from any exporter before the initiation by the designated authority of an investigation in accordance with the provisions of these rules and no such undertaking offered by any exporter shall be accepted by the designated authority if it considers acceptance thereof as impracticable or as unaccept­able for any other reason.

(4) Where the designated authority has accepted any undertaking under clause (b) of sub-rule (2), it may request any exporter from whom such undertaking has been accepted, to provide from time to time information relevant to the fulfilment of the undertaking and to permit verification of relevant data.

Provided that in the case of any violation of any of the undertakings, the designated authority may impose provisional duty or additional duty, as case may be, on the basis of best information available to it.

(5) The designated authority shall suo moto or on the basis of any request received from exporters or importers of the article in question or any other interested person review from time to time the need for the continuance of any undertakings given earlier.

Final finding. 16. The designated authority shall, within one year from the date of initiation of an investigation, or within such extended time as the Central Government may grant in exceptional cases,
determine as to whether or not the article under investigation is being dumped in India and if so, give a finding as to -

(a) export price, normal value and the margin of dumping of the said article and,

(b) in the case of countries to which section 9B of the Act applies, whether import of the said article into India cause or threaten to cause material injury to any industry established in India or materially retards the establishment of any industry in India.

**Determination of dumping.**

17. (1) An article shall be considered as being dumped if it is exported from a country or territory to India at less than its normal value.

(2) While determining the normal value in relation to an article, the designated authority shall make reasonable allowance on merits for the differences in terms and conditions of sale, taxation and other factors affecting price comparability.

**Determination of injury.**

18. (1) In the case of countries or territories notified under sub-section (2) of section 9B of the Act, a duty or additional duty, as the case may be, shall not be imposed under section 9A of the Act, unless the designated authority arrives at a further finding that the import of such article into India causes or threatens to cause material injury to any established industry in India or materially retards the establishment of any industry in India.
(2) When a finding of injury is arrived at under sub-rule (3), such finding shall involve an examination of the facts which the designated authority considers relevant under the circumstances including the volume of dumped imports and their effect on prices in the domestic market for like products and the consequent impact of such imports on domestic producers of such products.

(3) The designated authority, in exceptional cases, may give a finding as to the existence of injury even where a substantial portion of the domestic industry is not injured if -

(i) there is a concentration of dumped imports into an isolated market and,
(ii) the dumped articles are causing injury to the producers of all or almost all of the production within such market.

19. (1) The designated authority shall, on completion of its investigation submit to the Central Government its final findings.

(2) If the final finding arrived at by the designated authority is negative, that is contrary to the prima facie evidence on whose basis investigation was initiated, the designated authority shall terminate investigation forthwith and the Central Government shall refund any provisional duty or additional duty collected, to the party concerned.
(3) If the final finding of the designated authority is in the affirmative, that is, confirming the prima facie evidence on whose basis investigation was initiated, the Central Government shall determine the normal value of the article in question.

20. The designated authority shall cause to be published in the Official Gazette, all orders relating to the -

(a) initiation,
(b) suspension or termination of investigation,
(c) preliminary findings in cases where provisional duty or additional duty is proposed to be imposed, and
(d) final findings.

21. (1) The Central Government may, within six months of the publication of the final findings by the designated authority under rule 21, impose by notification in the Official Gazette upon importation into India of the article covered by the final finding, a duty, or additional duty, which shall not exceed the difference between the price at which such article is exported to India and the normal value as determined by the Central Government under clause (3) of rule 19.

(2) Any duty of additional duty so imposed or a provisional duty or additional duty imposed under rule 13, and sub-rule (1), shall be on a non-discriminatory basis and applicable to all imports of such article, from whatever source found dumped and where applicable,
causing injury except in the case of imports from those sources from which undertakings in terms of sub-rule (2) of rule 15 have been accepted.

22. (1) If the duty or additional duty imposed by the Central Government on the basis of the final findings of the investigation conducted by the designated authority is higher than the provisional duty already imposed and collected, the differential shall not be collected from the importer.

(2) If the duty or additional duty fixed after the conclusion of the investigation is lower than the provisional duty or additional duty already imposed and collected, the differential shall be refunded to the importer.

23. The designated authority shall, from time to time, review the need for continued imposition of the duty or additional duty, as the case may be, and shall, if it is satisfied, on the basis of information received by it that there is no justification for the continued imposition of such duty or additional duty, recommend to the Central Government for its withdrawal.

(2) The designated authority may also carry out investigations at the premises of any commercial organisation and may examine its records if such organisation agrees and if the signatory in whose territory the said commercial organisation is situated, is notified and has not raised any objection for the conduct of such investigation.

Finding on the basis of best information.

11. In a case in which an interested party or a signatory refuses access to, or otherwise does not provide necessary information to the designated authority within a reasonable period or impedes its investigation, the designated
authority may record its findings on the basis of the information available to it and make such recommendations to the Central Government as it deems fit under the circumstances.

12. The designated authority shall proceed expeditiously with the conduct of the investigation and shall, in appropriate cases, record a preliminary finding.

13. The Central Government may impose at any time, provisional duty or additional duty, as the case may be, on an article if the designated authority makes, on the basis of best information available to it, a preliminary finding that a bounty or subsidy is being provided in respect of the articles which are the subject matter of the investigation:

Provided that in the case of an investigation to which section 92 of the Act applies, no provisional duty or additional duty as the case may be, shall be imposed unless the designated authority arrives at a further finding on the basis of best information available to it that there is sufficient evidence of the import of such article causing or threatening to cause material injury to any industry established in India or materially retarding the establishment of any industry in India within the meaning of Article VI of the General Agreement on Tariffs and Trade as interpreted by the GATT Agreement.
on Subsidies and Countervailing Measures and that the provisional duty is necessary to prevent injury being caused during the period of investigation;

Provided further that no such provisional duty shall exceed the provisionally estimated amount of bounty or subsidy.

**Termination or suspension of investigation.**

14. (1) The designated authority may, at its discretion, suspend or terminate an investigation-

(a) on receipt of a request in writing for doing so on behalf of the domestic industry affected at whose instance the investigation was initiated; or

(b) when, in the course of an investigation, the designated authority is satisfied that there is not sufficient evidence of bounties or subsidies, or where applicable, injury, to justify continuation of the investigation.

(2) Notwithstanding anything contained in sub-rule (1), the designated authority may suspend or terminate an investigation if -

(a) the government of the exporting signatory -

(i) gives an undertaking in writing to the effect that it would withdraw the bounty or subsidy; or
(ii) in the case of countries to which section 93 of the Act applies, undertakes to limit the quantum of bounty or subsidy within reasonable limits, or to take other suitable measures to neutralise the effect of such bounty or subsidy provided that the designated authority is satisfied that the injurious effect of the subsidy is eliminated; or

(b) the exporters concerned agree to revise their prices in case of countries to which section 93 of the Act applies; and the designated authority is satisfied that the injurious effect of the subsidy is eliminated:

Provided that increase in prices as a result of clause (b) shall not be higher than what is necessary to eliminate the amount of bounty or subsidy.

(3) No undertaking as regards price increase under clause (b) sub-rule (2) shall be accepted from foreign exporters unless the designated authority has, after initiating an investigation in accordance with the provisions
of these rules, obtained the consent of the government of the exporting signatory for such revision:

Provided that no such undertaking offered by the foreign exporters shall be accepted by the designated authority if it considers their acceptance thereof as impracticable or as unacceptable for any other reason.

(4) Where the designated authority has accepted any undertaking under clause (b) of sub-rule (2), it may request any signatory or exporter from whom such undertaking has been accepted, to provide from time to time, information relevant to the fulfilment of the undertaking and to permit verification of relevant data:

Provided that in the case of any violation of any of the undertakings, the designated authority may impose provisional duty or additional duty, as the case may be, on the basis of best information available to it.

(5) The designated authority shall, suo moto or on the basis of any request received from the exporters or importers of the article in question or any other interested person, review at any time the need for the continuance of any undertaking given earlier.
Final finding.

15. The designated authority shall, within one year from the date of initiation of an investigation or within such extended time as the Central Government may grant in exceptional cases, give a final finding as to whether or not:

(a) bounty or subsidy is being granted in respect of the article under investigation and the quantum of such bounty or subsidy, and,

(b) in the case of countries to which section 93 of the Act applies, whether imports of such articles into India cause or threaten to cause material injury to any industry established in India or materially retards the establishment of any industry in India.

Determination of any exemption of an exported article from duties or taxes borne by a like product when destined for domestic consumption, or the remission of such duties or taxes in amounts not in excess of those which have accrued, shall not be deemed to be a subsidy for purposes of these rules and the term 'subsidy' shall include, but is not limited to any subsidy described as such in the Annexure to the GATT Agreement on Subsidies and Countervailing Measures.
Determination of injury.

17. (1) In the case of countries or territories notified under sub-section (2) of section 9B of the Act, a duty or additional duty, as the case may be, shall not be imposed under section 9 of the Act unless the designated authority gives a further finding that the import of such article into India causes or threatens to cause material injury to any established industry in India or materially retards the establishment of any industry in India.

(2) When a finding of injury is made under sub-rule (3), such finding shall involve an examination of the facts which the designated authority considers relevant under the circumstances including the volume of bounty-fed or subsidised imports and their effect on prices in the domestic market for like products and the consequent impact of such imports on domestic producers of such products.

(3) The designated authority may, in exceptional cases, give a finding as to the existence of injury even where a substantial portion of the domestic industry is not injured if-

(i) there is a concentration of bounty-fed or subsidised imports into an isolated market and,

(ii) the bounty-fed or subsidised imports are causing injury to the producers of almost all of the production within such market.
18. (1) The designated authority shall, on completion of its investigation submit to the Central Government its final findings;

(2) If the final finding arrived at by the designated authority is negative, that is, contrary to the prima facie evidence on whose basis investigation was initiated, the designated authority shall terminate investigation forthwith and the Central Government shall refund any provisional duty or additional duty collected, to the party concerned.

(3) If the final finding of the designated authority is in the affirmative, that is, confirming the prima facie evidence on whose basis investigation was initiated, the Central Government shall determine the amount of duty or additional duty, as the case may be, not exceeding the amount of estimated bounty or subsidy.

19. (1) The Central Government may, within six months of the publication of the final findings, by the designated authority under rule 20, impose, by notification in the Official Gazette, upon importation into India of the article covered under the final finding, a duty or additional duty, as the case may be, equal to the amount of duty or additional duty as determined by the Central Government under clause (3) of rule 18.
Public notice.

20. The designated authority shall cause to be published in the Official Gazette, all orders relevant to-

(a) initiation,
(b) suspension or termination of investigations,
(c) preliminary findings in cases where provisional duty or additional duty is proposed to be imposed, and
(d) final findings.

21. (1) If the duty or additional duty imposed by the Central Government on the basis of the final findings of the investigation conducted by the designated authority is higher than the provisional duty already imposed and collected, the differential shall not be collected from the importer.
(2) If the duty or additional duty fixed after the conclusion of the investigation is lower than the provisional duty or additional duty already imposed and collected, the differential shall be refunded to the importer.

22. The designated authority shall, from time to time, review the need for continued imposition of the duty or additional duty, as the case may be, and shall, if it is satisfied on the basis of information received by it that there is no justification for the continued imposition of such duty or additional duty, recommend to the Central Government for its withdrawal.
