At the meeting of the Committee of Anti-Dumping Practices on 8 May 1984 the representative of Australia advised the Committee that the administrative procedures required to be notified under Article 16:6 were as yet only in draft form and would be published in their final form subsequent to comments from the Australian Law Council (ADP/M/12, page 6).

In the meanwhile, the Government of Australia has provided a copy of the draft procedures to the GATT secretariat where they may be examined by interested Parties.
