The International Dairy Products Council at its regular meeting on 20 March 1986:

Recalled that under Article 3:1 of the Protocol Regarding Certain Milk Powders, the Protocol Regarding Milk Fat and the Protocol Regarding Certain Cheeses participants have undertaken to take the steps necessary to ensure observance of the International Dairy Arrangement minimum export prices.

Noted that it was important for the maintenance of the integrity and credibility of the International Dairy Arrangement that participants provide information on the steps they have taken under Article 3:1 of the Protocols to ensure observance of the International Dairy Arrangement minimum export prices.

Noted the proposal by Australia set out in DPC/W/52 and DPC/W/57 concerning the provision of information on the measures taken to ensure the observance of the International Dairy Arrangement minimum export prices.

Agreed that participants should, in their notifications provided under Article III of the Arrangement with respect to domestic policies and trade measures, include details on relevant legislation and related regulations and measures applied to ensure the observance of obligations incurred under the International Dairy Arrangement, notably the obligations to observe minimum export prices. This information shall be included in the inventory on trade measures established and kept up to date in accordance with Rule 29 of the Rules of Procedure of the Dairy Council.

Agreed further that in view of the current uncertainty of world dairy prices and the fact that some products covered by the International Dairy Arrangement are being exported at prices on or close to the minimum export prices, participants shall provide the details on their measures to ensure observance of the minimum prices by the date of the June 1986 Protocol Committee meetings.
