The following communication, dated 14 December 1983, has been received from the Permanent Representation of the Polish People's Republic.

In conformity with the relevant provisions of the International Dairy Arrangement, my delegation has been authorized to notify the following:

In August this year Poland sold to an EEC company 500 tons of "cheddar cheese for processing only" at US$800 per ton f.o.t. in Poland, because the Polish industry was not in a position to process this cheese in its own processing facilities.

In October this year Poland sold another 500 tons of "cheddar cheese for processing only" at US$618.23 per ton f.o.t. in Poland as again we were not able to process it in our own factories.

The above-mentioned two transactions are the only ones done at prices below the Dairy Arrangement's minimum price levels and are justified by the quality of the cheese involved.
