The following communication, dated 4 March 1992, has been received from the Australian Permanent Mission with the request that it be circulated to the members of the International Dairy Arrangement.

Australia is aware of the requirement to submit, in early 1992, information on domestic dairy policies and trade measures as part of a complete revision of IDA Questionnaire 5. Australia's current dairy regime remains consistent with our last complete revision of that questionnaire.

The current arrangements are due to terminate at the end of June 1992 and new arrangements, which will need to be in place by that date, are in the process of being developed. These will be notified in full around the middle of this year as part of Australia's complete revision of Questionnaire 5.
