PROTOCOL REGARDING CERTAIN MILK POWDERS

Communication from the Permanent Delegation of the Commission of the European Communities

The following communication, dated 2 May 1983, has been received from the Permanent Delegation of the Commission of the European Communities, under the provisions of Article 3:5 of the Protocol Regarding Certain Milk Powders.

Following the adoption by the Commission of the European Communities of Regulation (EEC) No. 852/83 of 12 April 1983 amending Regulation (EEC) No. 1725/79 on the rules for granting aid to skimmed milk processed into compound feeding stuffs and skimmed milk powder intended in particular for feed for calves, I have pleasure in notifying to you the new regulation and would request you to submit the amendments resulting from these new provisions to the Committee for approval at its next meeting.
1. It is proposed that the text of paragraph (a) be replaced by the following text:

"(a) either after being denatured in the customs territory of the Community in accordance with Article 2:1 of Regulation (EEC) No. 1725/799, as last amended by Regulation (EEC) No. 852/8310:

"Skimmed milk powder shall be denatured by the addition, per 100 kg. of skimmed milk powder, of either:

method A:

(a) 9 kg. of Lucerne meal or grass meal containing at least 50 per cent (m/m) or particles not exceeding 300 microns; and

(b) 1 kg. of starch containing at least 50 per cent (m/m) of particles not exceeding 80 microns,

uniformly distributed in the mixture;

or:

method B:

(a) 5 kg. of Lucerne meal or grass meal containing at least 50 per cent (m/m) of particles not exceeding 300 microns; and

(b) 12 kg. of fish meal, non-deodorized or with a strong smell, containing at least 30 per cent (m/m) of particles not exceeding 300 microns; and

(c) 1 kg. of starch containing at least 50 per cent (m/m) of particles not exceeding 80 microns,

uniformly distributed in the mixture."
