EXPORTS OF SKIMMED MILK POWDER FOR PURPOSES OF ANIMAL FEED

Notification by New Zealand

The following communication, dated 20 July 1990, has been received from the New Zealand Permanent Mission with the request that it be circulated to members of the International Dairy Arrangement.

I would be grateful if you would inform members of the Dairy Arrangement that we intend to conclude a sale to Japan of SMP under the derogation for stock food grade skimmed milk powder (Part 2, Article 3:5 refers).

The customer involved in this transaction will be Zennoh (Japan); the quantity involved is 3,000 tonnes; the price will be US$962 C & F; the delivery will be in August or September. As members of the Arrangement will be aware, exporters are permitted under this provision of the Arrangement to ship unaltered SMP for animal feed purposes to importers which have their processes and control measures registered. Japan is one of those countries.
