Committee on Import Licensing

INFORMATION ON IMPLEMENTATION AND ADMINISTRATION OF THE AGREEMENT

Addendum

The following communication has been received from the delegation of the United Kingdom on behalf of Hong Kong pursuant to the provisions of Article 1.4 of the Agreement.

The Government of Hong Kong has instructed me to inform the Committee on Import Licensing that, with effect from 17 November 1981, imports of celluloid film scrap into Hong Kong need no longer be covered by import licences.

To reflect the change in Hong Kong's licensing requirements as described in the above paragraph, and other changes relating to the types of licence application forms in use and the telephone numbers of certain licensing officers, the "Guide to Import and Export Licensing Requirements", referred to in LIC/3/Add.1, paragraph 3.2.1, has been revised and reissued. A copy of the latest edition of the Guide is made available for consultation in the GATT secretariat.¹

¹ Included in the checklist of publications received, circulated in document LIC/3/Add.5.
