Articles 1.4, 3(c) and 3(d) of the Agreement on Import Licensing Procedures provide that Parties shall publish certain information, Article 1.4 also providing explicitly that copies of the relevant publications shall also be made available to the GATT secretariat. At the meeting of the Committee on Import Licensing held in April 1980 there was general agreement that, if delegations were not able to notify the full text of their laws and regulations in an official GATT language, they should supply national publications containing these texts to the GATT secretariat (LIC/M/2, paragraphs 12 to 14).

Part I of the present document lists the names of publications containing information on import licensing procedures of individual signatories. Part II (pages 4 to 22) gives a complete checklist of the publications received. These are available for consultations in the Technical and Other Barriers to Trade Division. This document supplements and replaces LIC/2 and is circulated for the information of delegations.

In future, additional information on publications relative to licensing will be issued from time to time as addenda to this document.
