1. The present note has been prepared by the secretariat to assist members of the Group in carrying out the work under Task 14 of the Programme of Work (MTN/2), i.e. the "continuation of the study relating to import documentation (Chapters 1-99)".

2. At its meeting in March the Group had a preliminary exchange of views on the work to be undertaken (see document MTN/3B/7 paragraphs 19-21). The Group decided to proceed as follows:

(a) To review the notifications relating to import documentation contained in the Inventory with a view to determining the specific areas or problems to be dealt with by the Group.

(b) To study the question of the simplification and harmonization of import documentation, at the same time paying special attention to the needs and requirements of developing countries.

(c) As a first step in the implementation of (b) above, to carry out a discussion of the type of information which was basically necessary for the clearance of imported products with a view to formulating, at a later stage, general principles in this regard. In the course of the work account should be taken of:

(i) The work undertaken in other organizations

(ii) Suggestions made earlier in the GATT, especially in Annexes D and E of document COM.IND/W/79.

The List of Notifications in the Inventory

3. The notifications relating to import documentation appear in Section D of Part 2 of the Inventory entitled: "Consular Formalities and Documentation" (item Nos. 177-232). The attention of the Group is drawn to the introductory notes which appear at the

beginning of this section. It may also be of interest to the Group to note the
new Inventory numbers of the notifications regarding documentation, consular fees
and formalities which figured in the Illustrative List of Non-Tariff Barriers
prepared by the Committee on Trade in Industrial Products (see document L/3298,
Annex I), these are as follows: 180, 184, 208 and 229. Subsequently Working Group 2
added present item number 207 and another notification which has since been
deleted.

Prior work in the GATT

4. GATT work in the field of Import Documentation long pre-dates the preparatory
work on non-tariff measures for the present multilateral trade negotiations.
A background note by the secretariat on import documentation including consular
formalities containing a summary of the relevant provisions of the General Agreement
and of past decisions and recommendations of the CONTRACTING PARTIES may be found

5. Reports and summaries of the relevant discussions which have taken place
during the preparatory work in Working Group 2 of the Committee on Trade in
Industrial Products are contained in the following documents: L/3496 (Appendix 3,
Part IV); Spec(72)139; and COM.IND/W/106 (Annex, page 9).

6. In point c(ii) of the tasks of the Group listed in paragraph 2 above,
reference is made to Annexes D and E of COM.IND/W/79, which contain suggestions
relating to the draft Common Invoice for Customs Purposes and a draft All-Purpose
Entry Document respectively. For the convenience of members of the Group these
are reproduced as Annex I to the present document.

Work carried out in other international organizations

7. It will be recalled that Working Group 2, of the Committee on Trade in
Industrial Products had decided that in order to avoid duplication of work on the
simplification and harmonization of import documentation, it would be preferable
to await the outcome of the work which had already commenced within the
Economic Commission for Europe and the Customs Co-operation Council. The
secretariat has been following the progress of the work in both these bodies and
has provided the contracting parties with regular reports of the current position.
The most recent of these reports may be found in COM.IND/W/115 and in
MTN/3B/6 paragraph 23. Subsequent developments are summarized below:

(i) Economic Commission for Europe

8. The final version of the "Questionnaire on Invoices Used in International Trade"
has recently been sent out to all member countries of the ECE and governments have
been asked to reply before the end of April 1974. The questionnaire is reproduced
in Annex II. The secretariat has been informed by the Inter-regional Advisor on
Trade Facilitation that relevant data is being collected in respect of non-member
countries of the ECE on the basis of published information. In regard to future
work, the Group of Experts on Data Requirements and Documentation is scheduled to
meet on 30 September 1974. At that time the Group will review the replies received
to the questionnaire.
(ii) **Customs Co-operation Council**

9. The Permanent Technical Committee of the CGS held its last meeting on 4-8 March 1974. At that meeting the Committee considered and approved the texts of the following draft Annexes of the International Convention on the Simplification and Harmonization of Customs Procedures:\(^1\): Rules of Origin; Documentary Evidence of Origin; Control of Origin; Procedure of Exportation with Entitlement to Fresh Supplies of Raw Materials; Repayment of Import Duties and Taxes. These draft Annexes will now be submitted to the Council for approval. The Committee has instructed the CCC Secretariat to draw up a new amalgamated draft Annex concerning Clearance of Goods for Home Use, which will be considered at a subsequent meeting. This new amalgamated Annex will replace three separate draft Annexes which were entitled: "Declaration of Goods for Home Use", "Verification of Goods" and "Assessment and Collection of Import Duties and Taxes on Goods Declared for Home Use".
