(c) Comments by country maintaining the measures:

In conformity with Laws 12.858 and 16.590, imports of condensed milk in powder and wheat flour from the Free Food Zones of the provinces of Tarapacá and Antofagasta are subject to the payment of a charge which is fixed every six months.

As imports of the said products through the Free Food Zone are exempt from customs duties, the purpose of the charge is to match the price of the imported product with that of the similar domestic product.

Under Law 8094 of 1945, imports of butter from any point in the country are subject to a charge which is fixed periodically by the Ministry of Agriculture.

There is no surcharge on imports of cheese.
