Product: Meat and edible offals (02.01)

Country or group maintaining measures: Norway

Countries indicating an interest:
- Argentina
- Australia
- New Zealand
- United States

(a) Description:

Discretionary licensing

A minimum price is established by agreement between the Government and the two existing farmers' associations. There is a bilateral quota for imports of sheep meat from Iceland under EFTA agreement.

(b) Comments by other countries:

New Zealand understands that the discretionary licensing applying to sheep meat is a de facto prohibition or at least it has been so in the case of New Zealand.

Product: (BTN) Wheat and meslin (10.01)  
Country or group maintaining measures: Norway  
Countries indicating an interest: Argentina United States  

(a) Description:
State trading

(b) Comments by other countries:

(c) Comments by country maintaining the measures:

See general policy statement, MTN/3E/DOC/2/Add.9.

(Appplies also to 10.02, 10.03, 10.04, 10.05, 10.07, 11.01, 11.02, 11.03, 11.06, 12.02, 12.04, 17.03, 23.01, 23.02, 23.03, 23.04, 23.07.)

State trading is handled by the Norwegian Grain Corporation. This State enterprise, (established in 1929), administers the grain monopoly. Its activities are regulated by the Grain Supply Act of 1928 and the Feed Concentrates Act of 1951. The Corporation has the sole right to import wheat, rye, barley, oats and meal products of these grains. There is also an obligation to purchase domestic grain and to maintain sufficient stocks. The mechanism works similarly with regard to concentrates. Norway imports approximately 96 per cent of the grain used.

State trading is handled by the Norwegian Grain Corporation. This State enterprise, (established in 1929), administers the grain monopoly. Its activities are regulated by the Grain Supply Act of 1928 and the Feed Concentrates Act of 1951. The Corporation has the sole right to import wheat, rye, barley, oats and meal products of these grains. There is also an obligation to purchase domestic grain and to maintain sufficient stocks. The mechanism works similarly with regard to concentrates. Norway imports approximately 96 per cent of the grain used.

(b) Comments by other countries:

(c) Comments by country maintaining the measures:

The Norwegian Government has decided with effect from 27 September 1974, to introduce a licensing system for all imports of sugar for domestic consumption as well as for industrial use.

The developments in the sugar market during the last year has led to an unprecedented increase in sugar prices. The uncertainty as to the future development of sugar prices has caused problems with regard to the conclusion of long-term contracts. The object of the import licensing system is to secure long-term supplies of sugar through a system of centralized imports and does not imply any limitations of the quantities imported.

(Appplies also to 10.01, 10.02, 10.03, 10.04, 10.05, 10.07, 11.01, 11.02, 11.03, 11.06, 12.02, 12.04, 17.03, 23.02, 23.03, 23.04, 23.07.)

State trading is handled by the Norwegian Grain Corporation. This State enterprise, (established in 1929), administers the grain monopoly. Its activities are regulated by the Grain Supply Act of 1928 and the Feed Concentrates Act of 1951. The Corporation has the sole right to import wheat, rye, barley, oats and meal products of these grains. There is also an obligation to purchase domestic grain and to maintain sufficient stocks. The mechanism works similarly with regard to concentrates. Norway imports approximately 96 per cent of the grain used.
