At its meeting on 16 December 1975 Group "Agriculture" agreed to pursue its work in accordance with the procedural suggestions in document MTN/W/24 and, as an initial step, to undertake a process of information, examination and dialogue with respect to all tariff and non-tariff measures affecting agricultural products other than those covered by the product Sub-Groups. To this end, the countries concerned would notify to the secretariat any tariff and non-tariff measures affecting the agricultural products defined above that are of direct interest for their trade. Bilateral or plurilateral consultations would be organized, with the assistance of the secretariat, on the basis of the notifications received.

In accordance with this procedure, the following notification has been received from Greece.

**AUSTRIA**

1. Seasonal restrictions on imports of fresh fruit and vegetables.
2. Quantitative restrictions (quotas) on imports of wines and of concentrated grape and apple juice, as well as natural grape and apple juice.

**CANADA**

1. The import legislation allows the introduction of restrictive measures, thereby constituting an obstacle to exports to Canada of Greek products such as cottage cheese (feta).
2. The permit required by the Provincial Liquor Boards, not by the Federal Government, for imports of wines and beverages, and the requirement that these products must be listed in the catalogues of the Liquor Boards, constitute lengthy and complex procedures which hamper Greek exports.

SWITZERLAND

Quota restriction for some twenty-five years past on imports of Greek red wine in casks.
