IMPORT AND/OR EXPORT REGIME IN RESPECT OF CHEESE

New Zealand

Corrigendum

Page 3

Under 3. Import régime:

State trading - delete the second sentence of the sub-paragraph.

Under 4. Export régime:

Insert the following sub-paragraph.

State trading - the export marketing of cheese is the responsibility of the New Zealand Dairy Board. Export sales are made through the Board's own sales organization in the United Kingdom, through local agents in other areas, or in some cases it may sell direct on a contract basis. Except in the case of cheese exports to the United Kingdom which are subject to a special arrangement, the prices received for New Zealand cheese are the result of normal commercial negotiations.
