GENERAL PROVISIONS

Article I - Product Coverage

1. This Arrangement applies to the dairy products sector. For the purpose of this Arrangement, the term "dairy products" is deemed to include the following products, as defined in the Customs Co-operation Council Nomenclature:

- Milk and cream, preserved, concentrated or sweetened (b) 04.02
- Butter (c) 04.03
- Cheese and curd (d) 04.04
- Casein (e) ex 35.01
**Article II - Information**

1. All participants agree to communicate regularly and promptly to the Dairy Products Council, established in terms of Article VII of this Arrangement, all information to allow the Council to assess the overall situation of the world market for dairy products and the world market situation for each individual dairy product.

2. The information to be furnished by participants under paragraph 1 of this Article, at intervals and according to modalities to be agreed on by the Council, shall include (numerical) data on trends and (to the extent possible, numerical) data on prospects for production, consumption, imports and exports, including transactions other than normal commercial transactions, prices and stocks of the products covered by Article I of this Arrangement, and any other information deemed necessary by the Meat Council. Participants shall likewise communicate changes in their dairy policy at the level of production, consumption, imports, exports and stocks and shall use all reasonable means in their power that are consistent with their legislation to communicate their intentions on the matter where these are likely to have repercussions on international trade in dairy products.

3. In establishing the modalities of the information procedure the Council shall endeavour to avoid any duplication. It shall take account, in particular, of information communicated by participants in the context of the Protocols covered by Part Two of this Arrangement.
Article III - Consultations

1. The Dairy Products Council shall meet in order to:

(a) make an evaluation of the world market situation for dairy products, on the basis of a status report prepared by the secretariat of the Arrangement with the documentation furnished by participants and information communicated by the Management Committees of the Protocols covered by Part Two of this Arrangement, in accordance with Article II of this Arrangement;

(b) review the functioning of this Arrangement.

2. If the evaluation referred to in paragraph 1(a) of this Article leads the Council to consider that difficulties or the threat thereof are emerging in the dairy market in general or in the market for one or more products in this sector, the Council shall identify the measures that should be taken by the participants in order to remedy the situation.

3. The measures referred to in paragraph 2 of this Article could include the following:

(a) where, in pursuance of the provisions of paragraph 1 of this Article, the Council considers that the situation defined in paragraph 2 of this Article is temporary: temporary measures bearing on the volume of supply in the international market, on demand or on prices, without prejudice to the provisions of Article III of each of the Protocols covered by Part Two of this Arrangement;

(b) where, in pursuance of the provisions of paragraph 1 of this Article, the Council considers that the situation defined in paragraph 2 of this Article is more durable: medium- or long-term measures to contribute to improve the overall situation of the world market.

4. When considering measures that could be taken pursuant to paragraph 2 of this Article, due account shall be taken of the special and more favourable treatment to be provided for developing countries.
Article IV - Other General Provisions

(a) Safeguards

Note: It was noted that negotiations were currently being held in the Group "Safeguards" and it would be appropriate to await the outcome of those negotiations.

(b) Export subsidies

Note: It was noted that negotiations were currently being held in the Sub-Group "Subsidies and Countervailing Duties" and it would be appropriate to await the outcome of those negotiations.

(c) Health and veterinary measures

Note: The following proposal was made:

Without prejudice to whatever might be decided elsewhere concerning the applicability to these measures of all or part of the rules deriving from the Code of Conduct, and without bringing into question the legitimate necessity for each government to protect human and animal health and life, it should be accepted that all such measures would be notified if possible before their implementation, that consultations would be initiated among interested countries (upon request) and that the negative effects of any of the measures on trade could be the subject of appropriate possible solutions.

(d) Rules on packaging and labelling, designation of origin

Note: It was noted in connexion with paragraphs (c) and (d) that negotiations were currently being held in the Sub-Group "Technical Barriers to Trade". Group "Agriculture" has agreed to examine the applicability to agricultural products of the draft standards code drawn up in that Sub-Group. It would be appropriate to await the outcome of that examination.

1It was recalled that, in all the measures enumerated in this Article, provision should be made for special and differential treatment for developing countries.

1. Without prejudice to the provisions of Articles I to IV of this Arrangement, the products listed below shall be subject to the provisions of the Protocols annexed to this Arrangement:

Annex I - Protocol regarding certain milk powders

Skimmed milk powder
Whole milk powder (including partly skimmed milk powder)

Packaging: Packages normally used in the trade of a net content by weight of not less than 25 kgs. or 50 lbs., as appropriate.

Terms of sale: f.o.b.\(^1\) ocean-going vessels from the exporting country or, for a land-locked country, f.o.b. from one maritime port of its choice to be designated at the time it signifies its acceptance; or free-at-frontier exporting country. Prompt payment against documents.

\(^1\)By reason of their particular geographical situation, certain countries have suggested that the f.o.b. price mentioned in this Article be an adjusted f.o.b. price taking account of the cost of insurance and freight.
PART TWO (cont'd)

Article III - Minimum Price

Level and observance of minimum price

1. Participants undertake to take the steps necessary to ensure that the export price of the product defined in Article II shall not be less than the minimum price applicable under the present Arrangement. If the product is exported in the form of goods in which it has been incorporated, the participants shall take the steps necessary to avoid the circumvention of the price provisions of the Arrangement.
PART TWO (cont'd)

Article III - Minimum /and maximum/ prices

Level and observance of minimum /and maximum/ prices

1. Participants undertake to take the steps necessary to ensure that the export prices of the products defined in Article II shall not be less than the minimum prices /nor more than the maximum prices/ applicable under the present Protocol. Participants shall take the steps necessary to avoid the circumvention of the price provisions of this Protocol, if the products are exported in the form of goods in which they have been incorporated /or if in respect of their quality or their fat content they differ from the pilot products defined in Article II/.  

Note 1: It was stated that an examination should be made of the principles against which minimum prices are established and, in particular, that of an economic return to the efficient producer. The possibility would have to be examined of establishing a relationship between minimum prices and the prices received by the majority of producers.

Note 2: In case of non-observance of minimum prices, it was suggested that it would be possible to accept presumption of injury and imposition of a fine. /A compensation procedure might be used as a penalty in case of non-observance of maximum prices/ It was pointed out, however, that no such measure had been found necessary in existing arrangements. The possibility of invoking Article XXIII would be sufficient.
2. The minimum price provided for in paragraph 1 of the present Article applicable at the date of entry into force of this Arrangement is fixed at US$20 per 100 kgs.
2. The minimum prices provided for in paragraph 1 of the present Article applicable at the date of entry into force of this Protocol are fixed at:

- (a) US$/.../ per 100 kgs. for the skimmed milk powder defined in Article II.
- (b) US$/.../ per 100 kgs. for the whole milk powder defined in Article II.
- (c) US$/.../ per 100 kgs. for the buttermilk powder defined in Article II.

The maximum prices provided for in paragraph 1 of the present Article applicable at the date of entry into force of this Protocol are fixed at:

- (a) US$/.../ per 100 kgs. for the skimmed milk powder defined in Article II.
- (b) US$/.../ per 100 kgs. for the whole milk powder defined in Article II.
- (c) US$/.../ per 100 kgs. for the buttermilk powder defined in Article II.
3. The level of the minimum price specified in the present Article can be modified by the Management Committee established in terms of Article VII, during the period of validity of the present Arrangement taking into account, on the one hand, the results of the application of the Arrangement, and, on the other hand, the evolution of the situation of the international market.
PART TWO (cont'd)

Article III (cont'd)

Note: No formal proposal was made for any amendment of the modalities for modification of price. However, the following considerations were expressed: an examination should be made of the guidelines against which minimum prices might be reviewed, including the intervals at which reviews might be undertaken, and of the question whether market prices or production costs should predominate in the analysis of whether adjustments are warranted. Their determination should be made more automatic and more precise, for example by establishing a link with some constant, such as the support prices applied in certain countries.
Adjustment of minimum price

4. If the product actually exported differs from the pilot product type with regard to packaging or terms of sale, the minimum price shall be adjusted so as to protect the minimum price established in the Arrangement for the product specified in Article II according to the following provisions:

Packaging: if the product is offered otherwise than in packages normally used in the trade of a net content by weight of not less than 25 kgs. or 50 lbs., as appropriate, the application of the minimum price shall be adjusted so as to reflect the difference in the cost of packaging from the type of package specified above.

Terms of sale: if sold on terms other than f.o.b. from the exporting country or, for a land-locked country, f.o.b. from the maritime port of its choice or free-at-frontier exporting country, the minimum price shall be calculated on the basis of the minimum f.o.b. price specified in paragraph 2 above plus the real and justified costs of the services provided; if the terms of the sale include credit, this shall be charged for at the prevailing commercial rate.
Adjustment of minimum and maximum prices

4. If the products actually exported differ from the pilot products in respect of the fat content, manufacturing process, packaging or terms of sale, the minimum and maximum prices shall be adjusted so as to protect the minimum and maximum prices established in this Protocol for the products specified in Article II according to the following provisions:

Fat content: if the fat content of whole milk powder is greater or less than 26 per cent, the minimum price and the maximum price for this product shall be increased or reduced by US$/ for each 1 per cent of fat.

Manufacturing process: if the whole milk powder exported is manufactured by the roller process, any difference in price as between this product and the pilot product that may result from the manufacturing cost, the domestic market situation or commercial practices may be reflected in the minimum price and in the maximum price. At the export level, this difference shall not, however, exceed US$/ per 100 kgs.

Packaging: if the products are offered otherwise than in packages normally used in the trade of a net content by weight of not less than 25 kgs. or 50 lbs., as appropriate, the application of the minimum and maximum prices shall be adjusted so as to reflect the difference in the cost of packaging from the type of package specified above.

Terms of sale: if sold on terms other than f.o.b. from the exporting country or, for a land-locked country, f.o.b. from the maritime port of its choice, or free-at-frontier exporting country, the minimum and maximum prices shall be calculated on the basis of the minimum and maximum f.o.b. prices specified in paragraph 2 above plus the real and justified costs of the services provided; if the terms of the sale include credit, this shall be charged for at the prevailing commercial rate.
Exports for purposes of animal feed

5. By derogation from the provisions of paragraphs 1 to 4 of this Article participants may, under the conditions defined below, export or import, as the case may be, skimmed milk powder for purposes of animal feed at prices below the minimum price provided for in this Arrangement. The participants may make use of this possibility only to the extent that the processes and control measures, which they intend to apply or which will be applied in the country of destination, so as to ensure that the skimmed milk powder thus exported or imported is used exclusively for animal feed, are approved by the Management Committee and recorded in a register established by it. The participants shall furnish the necessary information concerning their transactions in respect of skimmed milk powder for purposes of animal feed, so that the Management Committee may follow developments in this sector and periodically make forecasts concerning the evolution of this trade.
PART TWO (cont'd)

Article III (cont'd)

Exports and imports of skimmed milk powder and buttermilk powder for purposes of animal feed

5. By derogation from the provisions of paragraphs 1 to 4 of this Article participants may be authorized by the Management Committee on conditions to be determined to export or import, as the case may be, skimmed milk powder and buttermilk powder for purposes of animal feed at prices below the minimum price provided for in this Protocol for this product. The processes and control measures which participants intend to apply or which will be applied in the country of destination, so as to ensure that the skimmed milk powder and buttermilk powder thus exported or imported is used exclusively for animal feed, must be approved by the Management Committee and recorded in a register established by it. Participants shall furnish the necessary information concerning their transactions in respect of skimmed milk powder and buttermilk powder for purposes of animal feed, so that the Management Committee may follow developments in this sector and periodically make forecasts concerning the evolution of this trade.
PART TWO (cont'd)

Article III (cont'd)

Special conditions of sales

6. Participants undertake within the limit of their institutional possibilities to ensure that practices such as sales in association with sales of other products, special rebates or discounts, do not have the effect of directly or indirectly bringing the export price of the product subject to the minimum price provisions below the agreed minimum price.

Field of application

7. For each participant the Arrangement is applicable to exports of the product specified in Article II and in paragraph 4 of Article III manufactured or repacked inside its own customs territory, whether the destination is temporary or final.
PART TWO (cont’d)

Article III (cont’d)

Special conditions of sales

6. Participants undertake within the limit of their institutional possibilities to ensure that practices such as sales in association with sales of other products, sales of the products covered mixed with other products, special rebates or discounts, do not have the effect of directly or indirectly bringing the export prices of the products subject to the minimum price provisions below the agreed minimum prices nor of raising the export prices of the products subject to the maximum price provisions above the agreed maximum prices.

Field of application

7. For each participant, the Protocol is applicable to exports of the products specified in Article II and in paragraph 4 of Article III manufactured or repacked inside its own customs territory, whether their destination is temporary or final.
Transactions other than normal commercial transactions

8. The provisions of paragraphs 1 to 7 of this Article shall not be regarded as applying to donated exports to developing countries or to exports destined for relief purposes or welfare purposes in developing countries. Such exports, and other transactions which are not normal commercial transactions, shall be effected in accordance with the FAO Principles of Surplus Disposal and shall be subject to the procedures for notification and consultation agreed upon in FAO.

9. Exports for welfare purposes in developed countries, such as school lunch programmes, of the products covered by this Arrangement shall be subject to the pricing provisions of this Article, it being understood however that a derogation under Article VII shall be granted, when justified, after taking into account the specific character of welfare shipments, including school lunch programmes, their sales conditions, trade effects and other factors.
Transactions other than normal commercial transactions

By derogation from the provisions of paragraphs 1 to 7 of this Article, donated exports to developing countries or exports destined for relief purposes or welfare purposes in developing countries of products covered by Article I may be effected at prices below the minimum prices provided for in this Protocol.

Consequently, the Management Committee shall exercise over transactions other than normal commercial transactions, and in accordance with conditions and modalities established by it, continuing surveillance in order to ensure that such transactions are effected in accordance with the FAO Principles of Surplus Disposal and consultation procedures.

1/ Under this proposal, paragraph 9 of Article III of the existing Arrangement would not be retained.
Article IV - Provision of Information

1. All participants agree to provide regularly and promptly to the Committee established in terms of Article VII of this Arrangement details of exports and imports of skimmed milk powder, and any other information the Committee requires in order to assess the functioning of this Arrangement and the situation in and the evolution of the international market.
PART TWO (cont'd)

Article IV - Provision of Information

1. All participants agree to provide regularly and promptly to the Committee established in terms of Article [Article] of this Protocol details of exports and imports of products covered by Article I and any other information the Committee requires in order to assess the functioning of this Protocol and the situation in and the evolution of the international market.

2. In cases where prices in international trade of the products covered by Article I are approaching the minimum prices mentioned in paragraph 2 of Article III, participants exporting these products shall notify to the Committee all the relevant elements for evaluating their own market situation and, in particular, credit or loan practices, twinning with other products, barter or three-sided transactions, refunds or rebates and exclusivity contracts, so that the Committee can make a verification.
(Existing Arrangement within GATT)
PART TWO (cont'd)

(Article 7 - Obligations of Exporting Participants

at the Level of Maximum Prices)

1. Exporting participants undertake to supply importing participants on a priority basis and to deliver to them, at prices consistent with the prices determined in paragraph 2 of Article III, certain quantities of products covered by Article I.

Note: It was noted that provision should be made for the possibility of special and differential treatment for developing countries.
PART TWO (cont'd)

Article V - Co-operation of Importing Countries

1. Participants which import skimmed milk powder undertake in particular:
   
   (a) to co-operate in implementing the minimum price objective of this Arrangement and to ensure, as far as possible, that skimmed milk powder is not imported at less than the appropriate customs valuation equivalent to the prescribed minimum price; and
   
   (b) to supply information concerning imports of skimmed milk powder from non-participants; and
   
   (c) to consider sympathetically proposals for appropriate remedial action if imports at prices inconsistent with the minimum price threaten the functioning of this Arrangement.

2. Paragraph 1 of this Article shall not apply to imports of skimmed milk powder for purposes of animal feed, provided that such imports are subject to the measures and procedures provided for in paragraph 5 of Article III.
PART TWO (cont'd)

Article 7 - Co-operation of Importing Countries

1. Participants which import products covered by Article I undertake in particular:
   (a) to co-operate in implementing the minimum prices objective of this Protocol and to ensure, as far as possible, that the products covered by Article I are not imported at less than the appropriate customs valuation equivalent to the prescribed minimum prices;
   (b) to supply information concerning imports of products covered by Article I from non-participants; and
   (c) to consider sympathetically proposals for appropriate remedial action if imports at prices inconsistent with the minimum prices threaten the functioning of this Protocol.

2. Paragraph 1 of this Article shall not apply to imports of skimmed milk powder and buttermilk powder for purposes of animal feed, provided that such imports are subject to the measures and procedures provided for in paragraph 5 of Article III.

Note: The following proposal was made:

1. In cases where prices in international trade of the products covered by Article I are at the level of the agreed minimum prices, participants importing these products shall undertake to buy supplies solely from participants exporting these products.

2. In cases where prices in international trade of the products covered by Article I are at the level of the agreed maximum prices, participants importing these products shall undertake not to resell the quantities delivered by participants exporting these products.
PART THREE

Article VI - Food Aid

In pursuance of the objectives of this Arrangement, participants agree:

1. In co-operation with FAO and other interested organizations, to foster recognition of the value of dairy products in improving nutritional levels and of ways and means through which they may be made available for the benefit of developing countries.

2. Where possible and appropriate, to incorporate the donation or sale on concessional terms of dairy products or related equipment in their respective aid programmes. Participants should notify the committee in advance each year of the scale of their proposed contributions of such food aid. It would be understood that contributions could be made bilaterally or through joint projects or through the World Food Program.

3. Recognizing the desirability of harmonizing their efforts in this field, as well as the need to avoid harmful interference with normal patterns of production and international trade, to exchange views in the Management Committee on their arrangements for the supply of dairy products as food aid or on concessional terms.
Note: To the extent that the Sub-Group decides to adopt the provisions suggested in the second sub-paragraph of paragraph 8 of Article III, paragraph 3 of Article VI of the existing Arrangement could be dropped.
Management Committee

1. A Management Committee shall be established within the framework of the General Agreement on Tariffs and Trade. The Committee shall comprise representatives of all participants to the Arrangement, and shall carry out all the functions which are necessary to implement the provisions of the Arrangement. The Committee shall be serviced by the GATT secretariat.

Review of market

2. The Committee shall keep under constant review the situation in and the evolution of the international market for skimmed milk powder and such other products as are subsequently included in this Arrangement, and the conditions under which the provisions of this Arrangement are applied by participants.

Regular and special meetings

3. The Committee shall normally meet at least once each quarter. However, the chairman may call a special meeting of the Committee on his own initiative. Any participant which considers that its commercial interests are being seriously threatened and which is unable to reach a mutually satisfactory solution with the other participant or participants concerned, may request the chairman to convene a special meeting of the Committee on an urgent basis so as to determine as rapidly as possible, and within four working days if requested, any measures which may be required to meet the situation.

Emergency action

4. Any participant, which considers that its interests are seriously endangered by a country not bound by this Arrangement, can request the chairman to convene an emergency meeting of the Committee within two working days to determine and decide whether measures would be required to meet the situation. If such a meeting cannot be arranged within the two working days and the commercial interests of the participant concerned are likely to be materially prejudiced, that participant may take unilateral action to safeguard the position, on the condition that any other participants likely to be affected are immediately notified. The chairman of the Committee shall also be formally advised immediately of the full circumstances of the case and shall be requested to call a special meeting of the Committee at the earliest possible moment.

Derogations

5. Upon request by a participant, the Committee shall have the authority to grant derogations from the provisions of paragraphs 1 to 5 and 9 of Article III in order to remedy difficulties which observance of minimum prices could cause certain participants. The Committee shall pronounce on such a request within three months from the date of the request.
PART FOUR

PART TWO - MILK FAT

Article II - Pilot Products

1. For the purpose of this Protocol, minimum and maximum export prices shall be established for the pilot products of the following descriptions:

   Designation: Butteroil or butterfat
   Fat content: 99.3 per cent by weight
   Packaging: in packages normally used in the trade of a net content by weight of not less than 25 kgs. or 50 lb., as appropriate
   Terms of sale: f.o.b. \(^1\) from the exporting country or, for a land-locked country, f.o.b. from one maritime port of its choice to be designated at the time it signifies its acceptance; or free-at-frontier exporting country. Prompt payment against documents

   Designation: Butter

   Packaging: In bulk, in packages normally used in the trade of a net content by weight of not less than 25 kgs. or 50 lb., as appropriate
   Terms of sale: F.o.b. \(^1\) from the exporting country or, for a land-locked country, f.o.b. from one maritime port of its choice to be designated at the time it signifies its acceptance; or free-at-frontier exporting country. Prompt payment against documents

\(^1\) By reason of their particular geographical situation, certain countries have suggested that the f.o.b. price mentioned in this Article be an adjusted f.o.b. price taking account of the cost of insurance and freight.
Article III - Minimum Price

Level and observance of minimum price

1. Participants undertake to take the steps necessary to ensure that the export price of the product defined in Article II shall not be less than the minimum price applicable under the present Protocol. The participants shall take the steps necessary to avoid the circumvention of the price provisions of this Protocol if the product is exported in the form of goods in which it has been incorporated, or if because of its quality or fat content it differs from the pilot product defined in Article II.
(Proposals for additions or amendments)

PART TWO (cont'd)

Article III - Minimum /and Maximum/ Prices

Level and observance of minimum /and maximum/ prices

1. Participants undertake to take the steps necessary to ensure that the export prices of the products defined in Article II shall not be less than the minimum prices /nor more than the maximum prices/ applicable under the present Protocol. Participants shall take the steps necessary to avoid the circumvention of the price provisions of this Protocol, if the products are exported in the form of goods in which they have been incorporated, or if in respect of their quality or their fat content they differ from the pilot products defined in Article II.

Note 1: It was stated that an examination should be made of the principles against which minimum prices are established and, in particular, that of an economic return to the efficient producer. The possibility would have to be examined of establishing a relationship between minimum prices and the prices received by the majority of world producers.

Note 2: In case of non-observance of minimum prices, it was suggested that it would be possible to accept presumption of injury and imposition of a fine. A compensation procedure might be used as a penalty in case of non-observance of maximum prices. It was pointed out, however, that no such measure had been found necessary in existing arrangements. The possibility of invoking Article XXIII would be sufficient.
Article III (cont'd)

2. The minimum price provided for in paragraph 1 of the present Article applicable at the date of entry into force of this Protocol is fixed at US$68 per 100 kgs.
(Proposals for additions or amendments)

PART TWO (cont'd)

Article III (cont'd)

2. The minimum prices provided for in paragraph 1 of the present Article applicable at the date of entry into force of this Protocol are fixed at:

(a) US$ per 100 kgs. for the butteroil or butterfat defined in Article II.

(b) US$ per 100 kgs. for the butter defined in Article II.

The maximum prices provided for in paragraph 1 of the present Article applicable at the date of entry into force of this Protocol are fixed at:

(a) US$ per 100 kgs. for the butteroil or butterfat defined in Article II.

(b) US$ per 100 kgs. for the butter defined in Article II.
Article III (cont'd)

3. The level of the minimum price specified in the present Article can be modified by the Management Committee established in terms of Article VII. However, any such modification may be decided upon only at the time when the question of extension of the duration of this Protocol is being considered in terms of paragraph 2 of Article VIII, or, at other times, only when an emergency situation is deemed to exist.
PART TWO (cont’d)

Article III (cont’d)

Note: No formal proposal was made for any amendment of the modalities for modification of price. However, the following considerations were expressed:

An examination should be made of the guidelines against which minimum prices might be reviewed, including the intervals at which reviews might be undertaken, and of the question whether market prices or production costs should predominate in the analysis of whether adjustments are warranted. Their determination should be made more automatic and more precise, for example by establishing a link with some constant, such as the support prices applied in certain countries.
Adjustment of minimum price

4. If the product actually exported differs from the pilot product type with regard to packaging or terms of sale as specified in Article II, the minimum price shall be adjusted so as to protect the minimum price established in this Protocol for the product specified in Article II according to the following provisions:

Packaging: if the product is offered otherwise than in packages normally used in the trade of a net content by weight of not less than 25 kgs., or 50 lb., as appropriate, the application of the minimum price shall be adjusted so as to reflect the difference in the cost of packaging from the type of package specified above.

Terms of sale: if sold on terms other than f.o.b. from the exporting country or, for a land-locked country, f.o.b. from the maritime port of its choice or free-at-frontier exporting country, the minimum price shall be calculated on the basis of the minimum f.o.b. price specified in paragraph 2 above plus the real and justified costs of the services provided; if the terms of the sale include credit, this shall be charged for at the prevailing commercial rate.
(Proposals for additions or amendments)

PART TWO (cont’d)

Fat content:

Packaging: If the products are offered otherwise than in bulk in packages normally used in the trade of a net content by weight of not less than 25 kgs., or 50 lb., as appropriate, the application of the minimum and maximum prices shall be adjusted so as to reflect the difference in the cost of packaging from the type of package specified above.

Terms of sale: If sold on terms other than f.o.b. from the exporting country or, for a land-locked country, f.o.b. from the maritime port of its choice, or free-at-frontier exporting country, the minimum and maximum prices shall be calculated on the basis of the minimum and maximum f.o.b. prices specified in paragraph 2 above plus the real and justified costs of the services provided; if the terms of the sale include credit, this shall be charged for at the prevailing commercial rate.
Article III (cont'd)

Special conditions of sales

Article III (cont'd)

Transactions other than normal commercial transactions

7. The provisions of paragraphs 1 to 6 of this Article shall not be regarded as applying to donated exports to developing countries or to exports destined for relief purposes or welfare purposes in developing countries. Such exports, and other transactions which are not normal commercial transactions, shall be effected in accordance with the FAO Principles of Surplus Disposal and shall be subject to the procedures for notification, consultation and establishment of usual marketing requirements agreed upon in FAO.
Transactions other than normal commercial transactions

By derogation from the provisions of paragraphs 1 to 6 of this Article, donated exports to developing countries or exports destined for relief purposes or welfare purposes in developing countries of products covered by Article I may be effected at prices below the minimum prices provided for in this Protocol.

Consequently, the Management Committee shall exercise over transactions other than normal commercial transactions, and in accordance with conditions and modalities established by it, continuing surveillance in order to ensure that such transactions are effected in accordance with the FAO Principles of Surplus Disposal and consultation procedures.

Note: It was noted that provision should be made for the possibility of special and differential treatment for developing countries.
Article V - Co-operation of Importing Countries

1. Participants which import the products covered by this Protocol undertake in particular:

(a) to co-operate in implementing the minimum price objective of this Protocol and to ensure as far as possible that the products covered by this Protocol are not imported at less than the appropriate customs valuation equivalent to the prescribed minimum price; and

Participants should notify the Committee in advance each year of the scale of their proposed contributions of such food aid. It would be understood that contributions could be made bilaterally or through joint projects or through the World Food Programme.

3. Recognizing the desirability of harmonizing their efforts in this field, as well as the need to avoid harmful interference with normal patterns of production and international trade, to exchange views in the Management Committee established in terms of Article VII on their arrangements for the supply of dairy products as food aid or on concessional terms.
Note: To the extent that the Sub-Group decides to adopt the provisions suggested in the second sub-paragraph of paragraph 7 of Article III, paragraph 3 of Article VI of the existing Protocol could be dropped.
