THE DAIRY PRODUCTS SECTOR

Corrigendum

1. The present corrigendum, prepared by the secretariat in the light of the discussions at the meeting of June 1978, contains the text of the articles, paragraphs and sub-paragraphs amended at that meeting.

2. Where any additional proposals have been announced, a note to that effect appears in the text.
Pages 7 to 11: Replace the text of Article V by the following text:

Article V - Other General Provisions

Pro memoria / Pro memoria / (a) Safeguards

Note: The following proposal was made:

The notification referred to in Article XIX:2 of the General Agreement on Tariffs and Trade shall likewise be made to the Council established under this Arrangement where the emergency action envisaged in that Article concerns products covered by this Arrangement.

The notification shall include a statement of the facts that are causing or threatening to cause, in the opinion of the participant intending to take the action, serious injury to domestic producers of like or directly competitive products.

In any case, and without prejudice to the provisions of Article XIX of the General Agreement on Tariffs and Trade and paragraph (f) of this Article, participants adversely affected by the action may refer the matter to the Council.

The Council may adopt such recommendations as it deems appropriate.

Note: It was noted by some delegations that negotiations were currently being held in the Group "Safeguards" and it would be appropriate to await the outcome of those negotiations.

1It was recalled that, in the measures enumerated in this Article, provision should be made for special and differential treatment for developing countries.
(b) Export subsidies

Note: A proposal will be made at a later date.

The following proposal was made:

Participants recognize that subsidies that contribute to distort markets for the products covered by the present Arrangement, including those applied at stages other than that of export whether they have the effect of increasing exports or of reducing imports of those products, jeopardize the achievement of the objectives of this Arrangement.

Accordingly, they undertake to avoid the use of such subsidies and gradually to reduce any that are in force with the object of eliminating them as soon as possible.

Accordingly, participants agree, without prejudice to the provisions of Article XVI of the General Agreement on Tariffs and Trade, to notify in writing to the Council the purpose and nature of any subsidies maintained by them, with an indication of their estimated effects on the quantity of the product or products imported or exported by them and the circumstances which, in their opinion, make the subsidy necessary.

Likewise, participants maintaining subsidies shall examine, with any participant or participants that so request, or in the Council, upon request by an interested participant, the modalities for implementing the undertaking gradually to reduce the said subsidies. The Council shall make such recommendations as it deems necessary.

Note: It was noted by some delegations that negotiations were currently being held in the Sub-Group "Subsidies and Countervailing Duties" and it would be appropriate to await the outcome of those negotiations.

It was noted that the commitments entered into in terms of Article VI of this Arrangement were a contribution to the practical solution of this problem.
Note: Two proposals were made.

First proposal:

Without prejudice to whatever might be decided elsewhere concerning the applicability to these measures of all or part of the rules deriving from the Code of Conduct, and without bringing into question the legitimate necessity for each government to protect human and animal health and life, it should be accepted that all such measures would be notified if possible before their implementation, that consultations would be initiated among interested countries (upon request) and that the negative effects of any of the measures on trade could be the subject of appropriate possible solutions.

Second proposal:

In accordance with the provisions of Article XX of the General Agreement on Tariffs and Trade, participants recognize the need to avoid that the measures referred to in this paragraph constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on international trade in the products covered by this Arrangement.

Consequently, participants undertake to notify the Council in writing of any measures they propose to adopt, with an indication of the circumstances which, in their opinion, make the adoption of such measures necessary.

Notification prior to application of a measure may be omitted in the event of urgent problems of human or animal health or of environmental protection, and provided such omission is justified to the entire satisfaction of the Council in the light of the provisions of Article XX of the General Agreement on Tariffs and Trade and of the present Arrangement.

The Council, in pursuance of paragraph (f) of this Article, may adopt such recommendations as it deems appropriate.
(d) Standards, rules on packaging and labelling, designation of origin

(Note: It was noted in connexion with paragraphs (c) and (d) that negotiations were currently being held in the Sub-Group "Technical Barriers to Trade". Group "Agriculture" has agreed to examine the applicability to agricultural products of the draft standards code drawn up in that Sub-Group. It would be appropriate to await the outcome of that examination.)

(e) Food aid and transactions other than normal commercial transactions

(Note: A proposal will be made at a later date.)

1. The participants agree:

(a) In co-operation with FAO and other interested organizations, to foster recognition of the value of dairy products in improving nutritional levels and of ways and means through which they may be made available for the benefit of developing countries.

(First alternative:

(b) Where possible and appropriate, to incorporate the donation or sale on concessional terms of dairy products or related equipment in their respective aid programmes. Participants should notify the Council in advance each year of the scale of their proposed contributions of such food aid. It would be understood that contributions could be made bilaterally or through joint projects or through the World Food Programme.

(c) Recognizing the desirability of harmonizing their efforts in this field, as well as the need to avoid harmful interference with normal patterns of production and international trade, to exchange views in the Council on their arrangements for the supply of dairy products as food aid or on concessional terms.)
Second alternative:

(b) In accordance with the objectives of this Arrangement, to furnish, within the limits of their possibilities, dairy products to developing countries by way of food aid.

(c) In order to allow the harmonization and development of their efforts in this field, to indicate each year to the Council the contributions that they intend to make in this respect in the course of the coming years. It is understood that contributions can be made bilaterally or through joint projects or through World Food Programme.

2. Donated exports to developing countries, exports destined for relief purposes or welfare purposes in developing countries, and other transactions which are not normal commercial transactions shall be effected in accordance with the FAO Principles of Surplus Disposal and Consultative Obligations. Consequently, the Council shall co-operate closely with the Consultative Sub-Committee on Surplus Disposal and shall exercise over transactions other than normal commercial transactions, and in accordance with conditions and modalities established by it, continuing surveillance in order to ensure that such transactions are effected in accordance with the said principles.

(i) Settlement of disputes

(i) Each participant shall promptly afford adequate opportunity for consultation regarding such representations as may be made by any other participant with respect to any matter affecting this Arrangement.

(ii) Any participant may raise before the Council any matter affecting this Arrangement.

(iii) If the matter affects the application of the specific provisions of the Protocol Regarding Certain Milk Powders and Casein or the application of the specific provisions of the Protocol Regarding Milk Fat or the
application of the specific provisions of the Protocol Regarding Cheese, any participant which considers that its trade interests are being seriously threatened and which is unable to reach a mutually satisfactory solution with the other participant or participants concerned, may request the Chairman of the Committee for the relevant Protocol established under Article VII:2(a) of this Arrangement, to convene a special meeting of the Committee on an urgent basis so as to determine as rapidly as possible, and within four working days if requested, any measures which may be required to meet the situation. If a satisfactory solution cannot be reached, the Council shall, at the request of the Chairman of the Committee for the relevant Protocol, meet within a period of not more than __/ days to consider the matter with a view to facilitating a satisfactory solution.

(iv) First alternative:

The commitments entered into between participants to this Arrangement including the Protocols annexed thereto, shall be deemed to be obligations of a contracting party under the GATT.

Second alternative:

minimum and maximum prices, by the following text:

2. (a) The minimum prices provided for in paragraph 1 of the present
article have been established with a view to ensuring a greater degree of

account, in particular, of the current market situation, the need to
establish and maintain a broad relationship with dairy price support
levels in the major producing participants, the need to ensure an appropriate
relationship between the minimum prices established in the Protocols to the
present Arrangement, the need to ensure equitable prices to consumers; and

The levels of the minimum and maximum prices specified in the present Article can be modified by the Committee established in terms of Article VII:2(a) of the Arrangement, hereinafter referred to as "the Committee", taking into account, on the one hand, the results of the operation of the Protocol and, on the other hand, the evolution of the situation of the international market. The levels of the minimum prices specified in the present Article shall be subject to review at least once a year by the Committee. The Committee shall meet in September/October of each year for this purpose. In undertaking this review the Committee shall take account, to the extent relevant and necessary, of costs faced by producers, currency factors, the need to maintain a long-term minimum return to the most economic producers, the need to maintain stability of supply and to ensure equitable prices to consumers, and the current market situation and shall have regard to the desirability of maintaining and improving the relationship between the levels of the minimum prices set out in paragraph 2(b) of the present Article and the dairy support levels in the major producing participants.

Packaging: If the products are offered otherwise than in packages normally used in the trade of a net content by weight of not less than 25 kgs. or 50 lbs. as appropriate, the application of the minimum and maximum prices shall be adjusted so as to reflect the difference in the cost of packaging from the type of package specified above.
