1. With regard to exports of products other than certain primary products (see note 1), Israel will not institute any new export subsidy programmes, and will not increase the level of subsidization (see note 2) in the following major programmes for encouraging such exports above their level as existed on 11 July 1984:

   - with regard to the export shipment fund and the foreign currency portion of the export production fund, the Government of Israel will continue its current practice of providing no export subsidy elements.

   - with regard to local currency financing under the export production fund, Israel will freeze the export subsidy element for four years from the date of accession to the Subsidies Code at the level as of 11 July 1984, and will eliminate the export subsidy element by six years from the date of accession to the Subsidies Code.

Note 1: "Certain primary products" shall be defined in accordance with footnote 29 to Article 9 of the Subsidies Code.

Note 2: "Level of Subsidization" shall be defined, for the purposes of this commitment, as the percentage point spread between the lending rates for each programme and the rates which the Government of Israel (or special institutions controlled by and/or acting under the authority of the Government of Israel) actually has to pay for the funds so employed (or, if applicable, would have to pay if it borrowed on international capital markets in order to obtain funds of the same maturity and denominated in the same currency as the programme funds.)
