The United States has the following questions concerning the Article XVI:1 notification from the Government of Finland contained in L/6630/Add.10:

1. On page 2, regarding the effect of the subsidy, what is the basis of the Government of Finland's assessment that the impact of the grants is marginal?

2. On page 6, regarding incidence, could the Finnish authorities indicate which producers or industries may be the major recipients (industry/producer) of the grants and loans?
