QUESTIONS SUBMITTED BY AUSTRALIA ON
ARTICLE XVI:1 NOTIFICATION FROM AUSTRIA
(L/6973/Add.6)

The following communication, dated 10 November 1992, has been received from the Permanent Mission of Australia.

1. Over 1988/89-1990/91 budget support for storage beef and pork, and export subsidies to the meat sector, have increased. Has this resulted in rising levels of seasonable intervention stocks and of subsidized exports? If so, to what extent?

2. What are the current destinations of Austrian subsidized beef exports? Does Austria have any plans to expand its subsidized beef export sales to other markets? If so, where?

3. What impact does Austria expect entry into the EEC will have on Austria's level of meat exports to third markets?
