NOTIFICATION UNDER ARTICLE 2.5.2

The following notification, published in the Canada Gazette, Part I, has been received from the delegation of Canada. It is being circulated in accordance with Article 10.4 of the Agreement.

Canada

Notifications of Proposed Technical Rectification

80.3.1. Amendment to Motor Vehicle Safety Regulations introducing new section 122 of Schedule IV to establish minimum performance. The amendment is to ensure safe motorcycle braking performance under normal and emergency braking conditions.

80.3.2. Amendment to Consumer Packaging and Labelling Regulations, subsection 31(2), requiring Canadian dealer and principal place of business declarations on labels of prepackaged products to be qualified by words "imported by" or "imported for" if the label does not state geographic origin in the manner required by the regulations. The proposed amendment would apply to prepackaged products manufactured or produced outside Canada and labelled in Canada and to imported products packaged and labelled in Canada.
