The following notification is being circulated in accordance with Article 10.4.

1. **Party and Agency:** Sweden: The Swedish Pressure Vessel Commission

2. **Provision of the Agreement:** 4.1 and 2.5.2

3. **Product(s) covered, CCCN Heading (National Tariff Heading where applicable):** Open vertical welded cylindrical tanks for inflammable and corrosive liquids.

4. **Title of project:** Revision of the Swedish Cistern Code I

5. **Description:** It is proposed that this edition shall be amended to comprise cisterns made of stainless steel as well as detailed guidance for construction of so-called floating roofs. The proposal also contains more exact rules for calculation, which imply that the temperature of the material is regarded in the formulas. Rules for dimensioning of pressure and vacuum valves are entered. Furthermore, the proposal contains figures showing examples of detail performances.

6. **Objective and rationale:** Protection for human health or safety.

7. **Relevant document(s):**

8. **Where published, when adopted:** The Swedish Pressure Vessel Commission, PO Box 8132, S-104 20 STOCKHOLM

9. **Final date for submission of comments:** 28 February 1981

10. **Proposed date of adoption and entry into force:** Not yet decided
