4. Products covered (CCCN where applicable, otherwise national tariff heading):
   Children's clothing, up to the age of twelve years, including bedclothes, textile equipment for baby carriages, baby bags and similar products intended for babies.

5. Title: Regulation on combustibility marking of children's clothing.

6. Description of content: According to the proposed regulation the products concerned are divided into three categories, A, B and C respectively, according to the combustibility of the products. Internationally accepted test methods are used as far as possible to determine the degree of combustibility. The regulation contains provisions on marking and labelling, but for the time being only products falling into category A, i.e. the most combustible products, must be marked and labelled.
