NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: UNITED KINGDOM

2. Agency responsible: Department of Industry

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], Other:

4. Products covered (CCCN where applicable, otherwise national tariff heading): Apparatus with loudspeaking facilities

5. Title: Apparatus with one or more particular functions for connection to the British Telecommunications Public Switched Telephone Network, Part 2. Specification for apparatus with loudspeaking facilities.

6. Description of content: This Notification should be read in conjunction with Notification TBT/Notif.83.61 relating to Part 1 of the standard. Part 2 specifies requirements for loudspeaking facilities incorporated in apparatus for connection to a single exchange line of the British Telecommunications public switched telephone network.

7. Objective and rationale: This standard sets down certain minimum technical requirements to ensure that type-approved apparatus of the above description will not, if connected to the BT public switched telephone network: endanger BT personnel or plant; interfere with the service to any BT subscriber other than the one operating the apparatus; expose the user of the apparatus to any likelihood of physical harm arising by virtue of that connection; prevent or hinder compliance with any international obligations to which the United Kingdom or BT are party.

8. Relevant documents: As in box 5 above

9. Proposed dates of adoption and entry into force: Adoption: July 1983
   Entry into force: January 1984

10. Final date for comments: 30 April 1983

11. Texts available from: National enquiry point [] or address of other body: British Standards Institution, 101 Pentonville Road, London N1 9ND. Please quote document reference no. 83/60953 DC.
