4. Products covered (CCCN where applicable, otherwise national tariff heading):  
   Prepacked foods of any kind intended for human consumption.

5. Title: Regulation on labelling of prepacked foods.

6. Description of content:  
   The draft regulation is intended to replace the existing regulation on labelling of prepacked foods, issued on 25 July 1975. The draft regulation is, in all essentials, adapted to the revised general standard for the labelling of prepackaged foods, which will be placed before the Codex Alimentarius Commission for acceptance in 1985. Compared with the existing regulation the most important amendments are:
   - the regulation will also apply to raw materials and semi-finished products intended for industrial use or institutions, e.g. hospitals,
   - the labelling must be in one of the Scandinavian languages (Danish, Norwegian or Swedish),
   - every ingredient and additive must be declared (positive declaration),
   - every product must be labelled with "Best for ---" (Best before --- date). Perishable products must, in addition, also be labelled with "Må ikke omsettes etter ---" (Not permitted to sell after --- date).
