**NOTIFICATION**

The following notification is being circulated in accordance with Article 10.4.

1. **Party to Agreement notifying:** SWEDEN

2. **Agency responsible:** Swedish Institute for Testing and Approval of Electrical Equipment (SEMKO AB)

3. **Notified under Article 2.5.2 [ ], 2.6.1 [ ], 7.3.2 [x], 7.4.1 [ ], Other:**

4. **Products covered (CCCN where applicable, otherwise national tariff heading):**
   Plastic-insulated (PVC or PE) cables for high voltage installations

5. **Title:** Plastic-insulated cables for high voltage installations; designed for discharge lamps and ignition equipment for oilburners

6. **Description of content:** The proposed test specifications are applicable to plastic-insulated cables with a rated voltage of 8 kV and with a nominal cross-sectional area of the conductor of 1.5 mm². The proposal is a revision of the previous test specifications, issued by SEMKO, SEMKO 113A-1976, and also a revision of the previous corresponding Swedish standard. The test specifications refer to electric installation equipment, which are subject to compulsory approval according to Regulation SIND/FS 1982:3 (regarding testing and approval of certain electric installation equipment), issued by the National Industrial Board (now the National Energy Administration).

7. **Objective and rationale:** Protection of human safety and health

8. **Relevant documents:** Regulation of the National Industrial Board (SIND/FS 1982:3). When adopted the new specifications will appear as document SEMKO 113A-1983.

9. **Proposed dates of adoption and entry into force:** To be determined later

10. **Final date for comments:** The Swedish body will proceed to implement the proposed measures after 15 March 1984 (45 days) if no comments or requests for extension of the time-limit have been received.

11. **Texts available from:** National enquiry point [x] or address of other body:
