NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: **UNITED STATES**

2. Agency responsible: Environmental Protection Agency (215)

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], Other:

4. Products covered (CCCN where applicable, otherwise national tariff heading):
   - Pesticides and devices

5. Title: Labelling requirements for pesticides and devices

6. Description of content: EPA proposes to revise and expand its regulations for the labelling of pesticide products and devices under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. The proposed regulation states the labelling requirements for pesticides required to be registered and provides recommendations for labelling when no requirement is imposed. Requirements are also proposed for pesticide products whose labelling is subject to agency regulation under the misbranding provisions of the FIFRA, but which are not required to be registered. This support would describe the requirements for the format and placement of the label, and the relationship of its various elements. It would also establish requirements for the content of pesticide labels, the scientific criteria, if any, on which specific requirements are based, and when necessary, the specific wording to be used.

7. Objective and rationale: Better quality pesticide labelling for users.

9. Proposed dates of adoption and entry into force: To be determined

10. Final date for comments: 26 December 1984
