NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: UNITED KINGDOM

2. Agency responsible: Department of Trade and Industry

3. Notified under Article 2.5.2 [x], 2.6.1 [x], 7.3.2 [x], 7.4.1 [x], Other:

4. Products covered (CCCN where applicable, otherwise national tariff heading):
   Telecommunication apparatus with auto-calling, auto-answering and auto-clearing
   facilities (CCCN 8513)

5. Title: Apparatus with one or more particular function for connection to the
   British Telecommunications Public Switched Telephone Network. Part 3: Specification
   for apparatus with auto-calling, auto-answering and auto-clearing facilities.

6. Description of content: This Notification should be read in conjunction with
   Notification TBT/Notif.83.61 relating to Part 1 of the standard. Part 3 specifies
   requirements for auto-calling, auto-answering and auto-clearing facilities
   incorporated in apparatus for connection to a single exchange line of the British
   Telecommunications Public Switched Telephone Network.

7. Objective and rationale: This standard sets down certain minimum technical
   requirements to ensure that type-approved apparatus incorporating any or all of the
   facilities mentioned above will not, if connected to the BT Public Switched
   Telephone Network: endanger BT personnel or plant; interfere with the service to any
   BT subscriber other than the one operating the apparatus; expose the user of the
   apparatus to any likelihood of physical harm arising by virtue of that connection;
   prevent or hinder compliance with any international obligation to which the United
   Kingdom or BT are party.

8. Relevant documents: As in box 5 above.

9. Proposed dates of adoption and entry into force: July 1984

10. Final date for comments: 15 March 1984
