The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: UNITED KINGDOM

2. Agency responsible: Department of Trade and Industry

3. Notified under Article 2.5.2, 2.6.1, 7.3.2, 7.4.1, Other:

4. Products covered (CCCN where applicable, otherwise national tariff heading):
   Cellular radio apparatus (CCCN: 85.15).

6. Description of content: This standard specifies the performance requirements for mobile stations operating with land station within the Total Access Communication System (TACS). This notification should be read in conjunction with notification TBT/Notif.84.216 relating to Part 2 of the standard.

7. Objective and rationale: The standard sets down certain minimum technical requirements to ensure that type-approved apparatus of the above description will not, if connected to the British Telecom (BT) Public Switched Telephone Network: endanger BT personnel or plant; interfere with the service to any BT subscriber other than the one operating the apparatus; expose the user of the apparatus to any likelihood of physical harm arising by virtue of that connection; prevent or hinder compliance with any international obligations to which the United Kingdom or BT are party.

8. Relevant documents: BSI Document 84/27619

9. Proposed dates of adoption and entry into force: 1985 - Exact date as yet unknown.

10. Final date for comments: 31 December 1984

11. Texts available from: National enquiry point or address of other body:
    Sales Administration (Drafts),
    British Standards Institution,
    Linford Wood, Milton Keynes, MK14 6LE (Tel: Milton Keynes (0908)320066).
