The following notification is being circulated in accordance with Article 10.4.

1. **Party to Agreement notifying:** UNITED STATES

2. **Agency responsible:** Environmental Protection Agency (207)

3. **Notified under Article** 2.5.2 [x], 2.6.1 [], 7.3.2 [], 7.4.1 [], Other:

4. **Products covered (CCCN where applicable, otherwise national tariff heading):**
   Motor vehicles and engines (CCCN Chapter 87.02)

5. **Title:** Standards for emissions from methanol-fuelled motor vehicles and methanol-gasoline fuel-equivalency factor

6. **Description of content:** This action announces the Environmental Protection Agency's intent to establish emission standards and test procedures for the certification of methanol-fuelled motor vehicles and engines. The Agency also intends to develop a fuel-equivalency factor for methanol so that methanol-fuelled vehicles may be appropriately included in corporate-average fuel-economy determinations and have appropriate fuel-economy labels.

7. **Objective and rationale:** To remove the possibility that the absence of specific emission standards for methanol in EPA's regulations and of a fuel-equivalency factor could hinder the development of methanol as a transportation fuel

9. **Proposed dates of adoption and entry into force:** To be determined

10. **Final date for comments:** 29 June 1984

11. **Texts available from:** National enquiry point [x] or address of other body:
    Joanne Overman, National Bureau of Standards
