NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

Party to Agreement notifying: SWEDEN

Agency responsible: Swedish Electrotechnical Commission, National Energy Administration and Swedish Institute for Testing and Approval of Electrical Equipment (SEMKO)

Notified under Article 2.5.2 [✓], 2.6.1 [ ], 7.3.2 [ ], 7.4.1 [ ], Other:

Products covered (CCCN where applicable, otherwise national tariff heading):

Household and similar electrical appliances - insect killers and electrostatic air cleaners, ionization appliances and similar appliances working at high voltage, (CCCN 85.06)

Title: (Draft Swedish Standard) Safety of household and similar electrical appliances - particular requirements for insect killers and electrostatic air cleaners, ionization appliances and similar appliances working at high voltage, SS 433 Q7 87

Description of content: The draft Swedish Standard SS 433 Q7 87 contains requirements for design and testing of insect killers and electrostatic air cleaners, ionization appliances and similar appliances working at high voltage. The standard gives particular requirements for applying IEC 335-1 on this type of appliances which are not covered by any IEC standard. The authority, the Swedish National Energy Administration, STEV, will approve the requirements for design and testing in the draft standard SS 433 Q7 87. The Swedish Standard is intended to be used in connection with the compulsory approval to be carried out by the Swedish Institute for Testing and Approval of Electrical Equipment, SEMKO.

Objective and rationale: Protection for safety to man and property

Relevant documents: IEC 335-1 transferred into Swedish Standard by SS 433 Q7 01. When published the document will also bear the reference SEMKO 9335-2-307

Proposed dates of adoption and entry into force: To be determined later

Final date for comments: 15 September 1985
